INTERNAUTICA 2017

Mednarodna razstava navtike, INTERNAUTICA ostaja s svojo dvaindvajsetletno tradicijo centralna točka za predstavitve navtičnih dosežkov na Jadranu in pomembno stičišče navtičnega turizma.

INTERNAUTICA ni le največji jadranski navtični sejem, ki že dvaindvajset let zagotavlja svojim partnerjem in razstavljalcem bogate možnosti za celovito predstavitev njihovih razstavnih programov, obiskovalcem pa ponuja zanimiv pogled v svet navtičnih novosti pred začetkom nove sezone, temveč je tudi pomemben prodajni sejem, ki ima precejšen vpliv na potrošnjo, saj se prav med samim sejmom vsako leto realizira veliko poslov, rezultati prodaje plovil in opreme pa so predvsem zadnja leta vse bolj vzpodbudni. S svojimi vsebinami in prireditvami ponuja INTERNAUTICA možnosti za strokovna srečanja, razne predstavitve, športne in družabne dogodke, kar zagotavlja možnosti za spletnje novih poslovnih vezi in prijateljstev. Prav tako predstavlja primerno okolje za predstavitve aktivnosti, ki so usmerjene v krepitev trajnostnega

razvoja in priznanj kot sta "Modra Zastava" za ekološko neoporečna in urejena kopališča in mednarodno priznanje "Jadransko plovilo leta", priznanj torej, ki spodbujajo trajnostni razvoj, pomen razvoja novih tehnologij, inovacij in ekološke ozaveščenosti. V letu 2017 smo posebej ponosni, da Internautica gosti ustanovno skupščino SMIA, (Slovenian Marine Industry Association), ki bo postala stična točka slovenske navtične industrije. To je strokovno združenje podjetij, ki delujejo na področju nujenja storitev in proizvodov v navtični industriji in ki seveda prispevajo k izvozu slovenskega znanja.

Razstavljalcem dvaindvajsete Internautice želimo organizatorji obilo poslovnih uspehov in novih priložnosti, obiskovalcem pa obilo zadovoljstva ves čas, ki ga bodo preživeli na sejmu.

Vsem se iskreno zahvaljujemo za izkazano zaupanje in sodelovanje.

Jurij Korenc
Izvršni direktor INTERNAUTICA 2017

PORTOROŽ, 4. - 7. MAJ 2017

PORTOROŽ, 4th - 7th OF MAY 2017

INTERNAUTICA is the largest Adriatic Boat Show, providing its partners and exhibitors various possibilities to present their exhibition programs. It offers visitors a variety of possibilities to get familiar with latest nautical novelties just before the start of the new season.

INTERNAUTICA has a significant impact on the vessels and marine equipment regional market and sales results. INTERNAUTICA is a good business platform offering many opportunities for professional meetings, various events, sport and social events, generating possibilities for new business and relationships. It represents best possible environment for the presentation of activities promoting sustainable development and campaigns, such as the »Blue Flag« and »Adriatic Boat of the Year

Award”, promoting new technologies, innovations and ecological awareness. In 2017 we are extremely proud to host the inauguration of SMIA, Slovenian Marine Industry Association.

Platinum membership status in the International Federation of the organizers of world’s best Boat Shows, IFBSO, is for sure a recognition for a long-standing work and achieved high quality standards.

The INTERNAUTICA boat show organizers wish a lot of business success and new opportunities to all exhibitors and wonderful moments spent on the exhibition site to all its visitors.

We are grateful for your trust and your kind cooperation.

Jurij Korenc
Executive director INTERNAUTICA 2017

Borut Pahor

Predsednik Republike Slovenije
President of the Republic of
Slovenia

Spoštovana Internautica, cenjeni prireditelji in razstavljalci, dragi obiskovalci in ljubitelji morja.

V veliko čast mi je, da vas lahko tudi letos v vlogi častnega pokrovitelja pozdravim na 22. razstavi navtike, ki k nam vabi obiskovalce od blizu in daleč.

Tudi letos sem z zadovoljstvom sprejel častno pokroviteljstvo tega najpomembnejšega jadranskega navtičnega sejma, saj javnosti znova predstavlja novosti in dosežke svetovne navtične industrije, tudi najbolj zvenečih imen iz sveta navtike, ter ljubitelje morskih modrin navdušuje s prikazi navtičnih presežkov - letos še posebej s področij tako imenovane zelene mobilnosti in zelenih tehnologij.

Prepričan sem, da prireditve, kakršna je jadranska kraljica navtike Internautica, pomenijo korak naprej za slovensko gospodarstvo, turizem in podjetništvo. Pomenijo spodbudo za nove ideje naših najboljših inovatorjev s področja pomorstva. So navdih za iskanje rešitev, ki hočejo morju, Zemlji in okolju več vrniti in manj vzeti. Vsako leto bolj očitno pa je, da je Internautica nenadomestljiva priložnost za slovenski turizem - tudi ta išče vselej nove poti in načine za povezovanje med človekom in naravo in Portorož v času Internautice ponuja najboljše prizorišče za to.

Dear Internautica, distinguished organisers and exhibitors, dear visitors and all admirers of the sea.

I am deeply honoured to once again welcome you as the patron of the 22nd Nautical Exhibition, which attracts visitors from near and far.

This year, I was once again delighted to accept this honourable association with the most important Adriatic nautical exhibition, because it is an event that presents innovations and achievements from the world nautical industry, as well as the most distinguished names from the maritime world. It also enthuses admirers of the sea by featuring some unique aspects of this sector – for example, this year, the areas of so-called green mobility and green technologies are especially emphasised.

I am convinced that events such as the Adriatic queen of the nautical industry, Internautica, represent a step forward for the Slovenian economy, tourism and entrepreneurship. They represent an incentive to pursue the new ideas of our top innovators in the maritime industry, who are an inspiration to search for solutions that want to give back more and take less from the sea, the Earth and the environment. It has thus become increasingly evident that Internautica is an irreplaceable opportunity for Slovenian tourism – it is searching for new paths and methods to connect man and nature, and Portorož is simply the best venue for such an event.

Destinacija Portorož & Piran ne skriva ambicij, da bi se povzpela v vrh seznama najbolj zaželenih turističnih destinacij v Sredozemlju, zato smo zelo ponosni, da bomo letos vnovič gostili Internautico, največji, najbolj atraktiven in najbolj obiskan navtični sejem ob Jadranskem morju.

Že dvaindvajset pomladi vsi pravi ljubitelji morja in plovbe v Sloveniji ter številni gostje iz tujine izberejo prav mondeni Portorož za ogled vrhunskega izbora najnovejših in najbolj privlačnih navtičnih zamisli ter inovativnih tehnologij prihodnosti.

Internautica je brezhibno organiziran sejem, ki nikoli ne razočara. Vsako leto znova preseže pričakovanja tudi najbolj zahtevnih navtičnih sladokuscev, ponuja pravo pašo za oči ljubiteljem plovbe in ustvarja zanimive ter donosne poslovne priložnosti.

Zagotovo bo tudi letos kar nekaj naših gostov uresničilo sanje o nakupu svojega plovila in jim vnaprej želim čudovito in varno plovbo. Obilo užitkov ob obisku sejma pa, seveda, želim tudi tistim, ki se raje držite kopnega. Obljubljam vam, da bo Internautica doživetje tudi za vas.

Drage ljubiteljice in ljubitelji morja, dobrodošli na slovenskem navtičnem prazniku v Portorožu.

Dr. Peter Bossman

Župan Občine Piran
The Mayor of Piran Municipality

Portorož and Piran do not hide their ambitions to rise to the top of the list of the most desired tourist destinations in the Mediterranean; therefore, we are very proud that this year we will once again host Internautica, the largest, most attractive and popular nautical exhibition along the Adriatic.

For the twenty-second spring in a row, true fans of the sea and navigation in Slovenia, as well as many foreign guests, will choose the beautiful Portorož to see a premium selection of the newest and most striking nautical ideas and innovative technologies.

Internautica is a flawlessly organised exhibition that never disappoints. Every year it exceeds the expectations of the most demanding nautical enthusiasts, providing spectacular sights and creating interesting and lucrative business opportunities.

This year, many of our guests will certainly realise their dream of buying a new boat, and I wish them wonderful and safe navigation in all their trips. I also say to those who prefer to stay on land that many other pleasures can be enjoyed during a visit to the exhibition. I promise that Internautica will be a real treat for all of you who come. Dear sea lovers, welcome to the Slovenian nautical holiday in Portorož.

Dear lovers of the sea, maritime enthusiasts and all who want to have a good time. Welcome to Portorož!

Japac Jakopin

J&J DESIGN

Ljubezen na prvi pogled

Morje je bilo njegova prva in zadnja ljubezen.

Ko ga je prvič zagledal nekega jutra, še majhen otrok, je obstal in ostrmel. Ni vedel, ne takrat ne kasneje, kako bi opisal veličasten občutek v svojem srcu. Šele čez veliko let je prebral neprevedljivo – in najkrajšo – Ungarettijevo pesem . V tistem hipu se je zavedel, da je nekdo vendarle znal preliti v besedo ta občutek vzvišene radosti :

“M’illumino d’immenso.” ali “Razsvetljen sem z neizmernim.”

Kmalu potem, ko je morje prvič uzrl, si je z zadržanim dihom in odprtih ust ogledal filma “20.000 milj pod morjem” in “Svet tišine”. V srcu je čutil, da je neskončna modrina - ki se dotika svetlega neba - njegov svet.

Odtlej se ni več ločil od njega, čeprav je bil včasih mesece daleč stran.

Vse bolj ga je spoznaval, občutil njegove valove, njegovo sol na obrazu, skrivnosti njegovih nederij – in vedno bolj ga je občudoval.

Prišle so druge ljubezni, druge ljubice. Nekatere za dneve, nekatere za leta.

Začuden je izvedel, da je vse napisano res: da tok časa prav tiho, skoraj neslišno, odnese ljubezen - kot Seno pod mirabojskim mostom. Da življenje loči tiste, ki se ljubijo, in morje v pesku zabriše stopinje ljubimcev, ki nista več eno.

Njegovo življenje je ubralo svoja pota - sedel je na sovoznikovem sedežu, in za krmilom je bila Usoda.

Morje pa je ostalo, in odtenki njegove modrine so z leti postajali vedno bolj sveži in izraziti.

Vse bolj je postajal podoben znancem, ki nosijo morje v svojih srcih : kot Mate, ki je vedno bolj zaljubljen v svoj otok, kot Vele, ki ima v osmem desetletju še vedno neporavnane račune v dalmatinskem podmorju, kot Ernest Hemingway, preden se je potopil v večno modrino, ali Josef Konrad, ko je še znal angleško.

Zatrdno ve, da bo takrat, ko ne bo več, za večno postal del morja .

Kdo je ta deček?

Eden od brezštevilnih obiskovalcev Internautice. Za nič na svetu ne bo zamudil nobene: da si v miru pogleda, kaj je novega na barkah, da sreča (že skoraj pozabljene) prijatelje, da okusi Darjino in Matjaževo gostoljubje, da z Erazmom pokadi podarjeno cigaro, ter z Juretom in njegovo lepoticco v nebeškem miru ob največji množici kramlja o tem, kam plujemo.

Love at First Sight

The sea was his first and last love.

When one morning as a child he saw it for the first time, he just stood still and stared. He did not know, not then nor later on, how to describe the majestic feeling in his heart. Many years after he read the untranslatable – and the shortest – Ungaretti poem. In that instant he realised that someone did find the words to describe the feeling of pure joy:

M'illumino d'immenso. Or "I am enlightened by immensity."

Soon after seeing the sea for the first time, he held his breath and was lost in astonishment when he watched the films *20,000 Leagues under the Sea* and *The World of Silence*. He felt in his heart that the endless blue – that touches the bright sky – was his world.

Since that moment he was not able to separate himself from it, although sometimes he was months away.

He learned about it more and more, he felt its waves and salt on his face, the mysteries of its depths – and he admired it more and more.

And then came other loves and mistresses. Some for days, others for years.

Astonished he found that everything that was written was true: that the stream of time quietly, almost silently, carries love – like the Seine beneath the Mirabeau Bridge. That life separates those who love each other, and in the sand the sea erases the footsteps of lovers who are no longer one.

His life took its own way – he sat in the passenger seat and Destiny took over the wheel.

The sea stayed and the shades of its blue became fresher and more expressive through the years.

He became more like his acquaintances that carry the sea in their hearts: like Mate, who is still in love with his island, and Vele, who in his nineties still has some unsettled matters in the Dalmatian Sea, like Ernest Hemingway before he drowned in the eternal blue, or Joseph Conrad, who still spoke English.

He knows for sure that when he goes away he'll become the part of the sea forever.

Who is this boy?

One of the countless visitors to Internautica. By no chance will he miss any exhibition: he will take time to see what's new, to meet (almost forgotten) friends, to taste Darja's and Matjaž's hospitality, to smoke the gifted cigar with Erazem, and to chat with Jure and his beauty in the heavenly peace among the busy crowd about where we are sailing.

JADRANSKO PLOVILO LETA 2017

Nagrada "Jadransko plovilo leta", ki jo podeljuje Internautica z mednarodno strokovno žirijo iz Slovenije, Hrvaške, Srbije, Črne Gore in Italije, bo letos organizirana že peto leto zapored. Pri izboru sodelujejo revija Barche Magazine iz Italije, Nautički Magazin iz Srbije, reviji More Magazin in Yachts Croatia iz Hrvaške, revija Navtika Plus iz Slovenije in Internautica.

V konkurenci bodo motorna plovila, jadrnice in plovila, ki imajo poudarjeno "jadransko noto", kar pomeni, da je njihova uporabnost prilagojena razmeram in zahtevam na Jadranu ter so bila izdelana in predstavljena v jadranski regiji v času med 1. januarjem 2016 in 30. aprilom 2017.

STROKOVNA ŽIRIJA

Nikola Orešković

Samostojni projektant in vodja projektov. Delal je v hrvaškem Brodarskem inštitutu, sodeloval pri Elanovih modelih power, podpisan pa je še pod mnogimi drugimi projekti, med njimi je tudi Adriana 36.

Braslav Karlič

Ustanovitelj in glavni urednik najstarejše in najuglednejše hrvaške navtične revije More magazin. Navtik, ki pluje tako z jadrnicami kot motornimi barkami.

Vedran Rožić

Izvršni urednik revije More magazin, zadolžen za testiranje jadrnic in motornih plovil. V zadnjih petih letih je plul na več kot sto različnih barkah.

Dejan Ravter

Glavni urednik revije Navtika plus, dolgoletni novinar in urednik na področju navtičnega tiska ter eden tistih, ki ima v Sloveniji največ izkušenj pri plovbi z jadrnicami in motornimi plovili.

Dejan Despotović

Obožuje morje in vse vrste plovil – motorne čolne, jadrnice in druge. K timu Nautičkega Magazina prispeva z izkušnjami, smehom in obširnimi znanjem o vinu. Je tudi odlični kuhar.

Dejan Vlaškalić

Ustanovitelj in glavni urednik Nautičkega Magazina za Srbijo in Črno Goro od leta 2004. Ne glede na velikost in razkošje, najprej pogleda v interier in sam načrt plovila. S kuhanjem nima izkušenj.

Andrej Justin

Navtični arhitekt, ki se je podpisal pod projekte, kot so Elan 23WA, JustinTen, Maxi Jena, RC44. Diplomiral na Westlawn Institute of Marine Technology v Ameriki, ustvarja v Sloveniji.

Ljubiša Jovanović

Član uredniške ekipe pri Nautičkem Magazinu, ki je ljubitelj večtrupnih plovil. Sicer je strokovnjak na številnih področjih, tako da ne bodite presenečeni v kolikor ga srečate v letalski kabini na katerem izmed letal. Mimogrede, je odlični kuhar!

Luca Sordelli

Luca Sordelli, rojen leta 1966, je jadralski novinar s petindvajsetletnimi izkušnjami. Že od nekdaj je ljubitelj morja in plovil. Trenutno je zaposlen pri italijanski navtični reviji BARCHÉ. V preteklosti je že sodeloval s številnimi navtičnimi revijami in napisal knjigo "Moški in plovila", ki je zgodba o navtičnem turizmu v Italiji. Je strokovnjak za testiranje plovil, posebej poznan po prispevkih s podrobnimi tehničnimi recenzijami. Sodeluje tudi z italijansko online različico revije Wired in italijanskim športnim časopisom La Gazzetta dello Sport.

Darko Šupuk

Glavni urednik Yachts Croatia, vodilne revije s področja navtike in življenjskega sloga v jadranski regiji. Nekdanji član žirije World Yachts Trophies in urednik revije Nautica (hrvaška izdaja) ter vodja marketinga pri ladjedelnici Salona Yachts. Gospod Šupuk je tudi uveljavljen jadralski tekmovalac in večkratni prvak Hrvaške v različnih kategorijah, zmagovalec evropskega prvenstva, uvrstil se je med prvih deset na svetovnem prvenstvu in osvojil tretje mesto na priljubljeni svetovni jadralski turneji RC 44. Sicer pa je navtični novinar, ki testira motorna plovila in jadrnice ter piše recenzije.

Francesco Michienzi

Od leta 1995 do leta 1996 je pisal članke in izvajal testiranje plovil za navtično revijo. V letu 1996 je postal odgovorni urednik revije Entro e Fuoribordo. Med leti 1997 in 2002 je bil odgovorni urednik revije Caravan e Camper. Od leta 2002 naprej je odgovorni urednik internacionalne navtične revije Barche. Od leta 2011 do 2013 je bil odgovoren urednik navtičnih člankov v reviji Il Sole 24 Ore, v letu 2014 pa navtičnih člankov v reviji Il Giornale.

Jurij Korenc

Direktor Studia37, bivši predsednik IFBSO in snovalec mednarodne razstave navtike Internautica, ima trideset let izkušenj na različnih področjih navtike in plovbe, je mednarodno priznani strokovnjak in svetovalec za razvoj in trženje navtičnih blagovnih znamk in navtičnih sejmov.

Niccolo Volpati

Je novinar že skoraj 20 let in v tem času je delal z mnogimi različnimi navtičnimi revijami. 5 let je ekskluzivno sodeloval pri reviji Barche. V tem času je testiral veliko motornih in jadralskih plovil različnih vrst in velikosti: od najmanjših čolnov do giga jaht. Njegova najljubša plovba je tista, ki jo bo šele opravil.

NOMINACIJE IN ZMAGOVALCI ZA LETO 2017:

MOTORNA PLOVILA

1. Gumenjak:

- ▶ **Joker Clubman 35**
- ▶ **Capelli Tempest 40**
- ▶ **ZAR 85 SL**
- ▶ **LTN 34 Diamond**
- ▶ AB Jet 445
- ▶ Almar 820
- ▶ Grand G580
- ▶ Marlin 790 Dynamic
- ▶ Saver MG 820
- ▶ Solemar 35 Open
- ▶ Williams Minijet 280

2. Športni motorni čoln do 20 čevljev:

- ▶ **Sea Ray SPX 190**
- ▶ **Bayliner VR6**
- ▶ **Faster 545**
- ▶ Quicksilver 505 Open
- ▶ Slomotion 5

3. Športni motorni čoln od 21 do 40 čevljev:

- ▶ **Invictus 370 GT**
- ▶ **Rivamare**
- ▶ **Chris Craft 32 Launch 32 HE**
- ▶ Atlantic Adventure 780
- ▶ Axopar 37
- ▶ Bella 700 Raid
- ▶ Beneteau Antares 7
- ▶ Beneteau Antares 8
- ▶ Grandezza 25S
- ▶ Invictus 280 CX
- ▶ Jeanneau Cap Camarat 6.5 BR
- ▶ Quicksilver 755 Activ Weekend
- ▶ Sea Ray 350 SLX
- ▶ Sea Ray SLX 400
- ▶ XO Cruiser
- ▶ XO DFNDR

4. Motorna jahta do 40 čevljev:

- ▶ **Greenline 36 Hybrid**
- ▶ **Princess V40**
- ▶ **Bavaria R40 coupe fly**
- ▶ Bavaria E40 sedan fly
- ▶ Beneteau swift trawler 30
- ▶ Galeon 360 Fly
- ▶ Innovezione e Progetti 35 Open
- ▶ Jeanneau Leader 30
- ▶ Jeanneau Leader 33
- ▶ Marex 310 Sun Cruiser

5. Motorna jahta od 41 do 50 čevljev:

- ▶ **Ferretti Yachts 450**
- ▶ **Frauscher 1414 Demon**
- ▶ **Jetten Beach 45**
- ▶ Fontaine Pajot MY 44
- ▶ Princess 49 Fly

6. Motorna jahta nad 51 do 60 čevljev:

- ▶ **Cranchi E 52F Evoluzione**
- ▶ **Arcadia Sherpa**
- ▶ **Pershing 5X**
- ▶ Absolute 50 Fly
- ▶ Fairline Squadron 53
- ▶ Sunseeker Manhattan 52

7. Motorna jahta nad 61 čevljev:

- ▶ **Riva 76 Bahamas**
- ▶ **Princess 30M**
- ▶ **Adler Suprema 76**
- ▶ **Amer 100**
- ▶ **Monte Carlo Yachts 80**
- ▶ Custom Line Navetta 37
- ▶ Elling E6
- ▶ Ferretti Yachts 850
- ▶ San Lorenzo SL78
- ▶ Sirena Yacht 64
- ▶ Sunseeker 116 Yacht
- ▶ Sunseeker Manhattan 66

JADRNICICE

1. Cruiser do 40 čevljev:

- ▶ **RM970**
- ▶ **Salona380**
- ▶ **Ikone 750**
- ▶ Focus 750
- ▶ Sunbeam 22.1

2. Cruiser od 41 do 60 čevljev:

- ▶ **Elan GT5**
- ▶ **Bavaria C57**
- ▶ **Dufour 56 Exclusive**
- ▶ **Jeanneau 51**
- ▶ **Najad 450cc**
- ▶ **Hallberg Rassy 44**
- ▶ Allures 45.9
- ▶ Hanse 588

3. Performance do 40 čevljev:

- ▶ **Pogo 36**
- ▶ **Dehler 34**
- ▶ **Ofcet 32**
- ▶ Reacher 780

4. Performance od 41 do 60 čevljev:

- ▶ **Solaris55**
- ▶ **GrandSoleil 58**
- ▶ **X Yachts X4**
- ▶ Azuree 41
- ▶ Nautor ClubSwan50
- ▶ SWAN 54

5. Jadrnica nad 60 čevljev:

- ▶ **Advanced A80**
- ▶ **Contest 67CS**
- ▶ **Oyster 675**
- ▶ BeneteauOceanisYacht 62
- ▶ Dufour 63 Exclusive
- ▶ Euphoria 68
- ▶ Hanse 675
- ▶ Mylius 76DS

6. Daysailer:

- ▶ **L30class**
- ▶ **DeCesari_R 30**
- ▶ **Tofinou10c**
- ▶ Bihan 650
- ▶ Nuva MS6
- ▶ SCOW FR18

7. Večtrupna plovila:

- ▶ **Lagoon Seventy7**
- ▶ **Bali 4.0 Lounge**
- ▶ **Outremer 4X**
- ▶ BavariaNautitechFly46
- ▶ Corsair 760
- ▶ Tricat 30
- ▶ Xquisite X5

POSEBNA KATEGORIJA

+ Jadranski proizvod leta – motorno plovilo ali jadrnica jadranske proizvodnje (ITA, SLO, HR, CG)

- ▶ **Adler Suprema 76**
- ▶ **Elan GT5**
- ▶ **Greenline 36 Hybrid**
- ▶ **Solaris 55**
- ▶ Betinska gajeta 700
- ▶ Fisherman 36 Adria Mar
- ▶ Grand Soleil 58
- ▶ Kuster 70
- ▶ Reacher 780
- ▶ Salona 380
- ▶ Slomotion 5

+ Jadranski navtični projekt leta – inovacije, nove tehnologije, vsebine, ekologija, itd.

- ▶ **Adler Suprema 76**

+ Posebna nagrada okoljske ozaveščenosti - za izjemne prispevke k zaščiti, ohranjanju in izboljšanju naravnih virov v jadranski regiji.

- ▶ **KAMPANIJA: ŽIVETI Z MORJEM**
- ▶ **SEA-MED PROJECT**

ADRIATIC BOAT OF THE YEAR 2017

INTERNAUTICA is the most important Adriatic International Boat Show, dedicated to promote the Marine lifestyle, Boating and supporting the environment ecological awareness among the general public.

During last 22 years, INTERNAUTICA established itself as an internationally recognised brand, offering global and local overview of the nautical market and simultaneously provide all exhibitors the best environment possible for exhibiting their products and services. The 2017 annual Boat Show edition will take place from May 4th till 7th, 2017 at the well-known and pleasant exhibition site of Marina Portoroz in the coast of Slovenia.

JURY OF EXPERTS

Nikola Orešković

Independent designer and project manager, once employed with the Croatian Brodarski institut and Elan Power line boats. Author of numerous projects, among others Adriana 36.

Braslav Karlič

Founder and editor-in-chief of the oldest and most renowned Croatian boating magazine. He sails on both motor and sailing boats.

Vedran Rožić

Executive editor with More magazine, in charge of sailing and motor boat tests. In the last five years only, he sailed on more than a hundred different boats.

Dejan Ravter

Editor-in-chief with Navtika plus magazine, an experienced journalist and editor of nautical magazines. The one with the most experience in sailing and motorboats in Slovenia.

Dejan Despotović

He adores sea and boats, motor boats or sailing yachts – doesn't matter. In Nautički magazin team he brings experience, laugh and great knowledge about wine. Perfect cook as well.

Dejan Vlaškalić

Founder and editor in chief of Nautički magazin, distributed in Serbia and Montenegro since 2004. He first looks at the boat interior and floor plan, no matter of size and luxury. He knows nothing about cooking.

Andrej Justin

Marine architect, author of projects, such as: Elan 23WA, Justin Ten, Maxi Jena, RC44 etc. He graduated from Westlaw Institute of Marine Technology, USA. He currently works in Slovenia.

Ljubiša Jovanović

Multihull fan in Nautički magazin editorial team. However, he is an expert in so many fields, so it is not surprise to meet him in airplane cabine on your flight. And he is excellent cook!

Francesco Michienzi

Since 2002 he has been editor in chief of the international boating magazine BARCHE. In 2014 he was responsible for the boating specials in the Il Giornale newspaper. From 2011 to 2013 he was responsible for the boating specials in the Il Sole 24 Ore newspaper. From 2000 to 2002 he was the editor in chief for the environmental magazine Aqua.

From 1997 to 2002 he was the editor in chief of Caravan e Camper magazine. In 1996 he became editor in chief of Entro e Fuori-bordo magazine. From 1995 to 1996 he wrote some articles and carried out boat trials for Nautica magazine

Luca Sordelli

Luca Sordelli, born in 1966, is a yachting journalist with 25 years experience. He has always been a sea and boat enthusiast. At the moment he works for the BARCHE magazine. In the past he collaborated with several boating magazines and he wrote the book "Men and boats, the story of pleasure boating in Italy". Over time he has specialized in boat tests and technical editorials. He also works with Wired.it, La Gazzetta dello Sport.

Darko Šupuk

Editor in chief and publisher of Yachts Croatia, the leading yachting and lifestyle magazine in the Adriatic region. Former member of the World Yachts Trophies jury, editor of Nautica magazine (Croatian edition) and head of marketing for Salona yachts, Mr. Šupuk is an accomplished competitive sailor (multiple champion of Croatia in various dinghies and big boats, winner of European Championship medals, ranking among the top ten on the World match racing tour and third in the RC 44 World Tour), also the journalist who writes tests and reviews personally on motor and sailing yachts.

Jurij Korenc

CEO at Studio 37, former President of IFBSO and Executive Director of the International Boat Show Internautica, with thirty years of experience in boating and navigation. A recognized expert and consultant in marketing and development of nautical brands.

Niccolo Volpati

I've been a journalist for almost 20 years and I have worked for different boating magazines. For 5 years I've been exclusively involved in BARCHE. In my work I have tested a lot of power and sail boats of different kinds and sizes: from the smallest ones to the gigayachts. My best sailing is the one I have yet to do.

NOMINATIONS & WINNERS FOR 2017

MOTOR BOATS

1. Dinghy:

- ▶ **Joker Clubman 35**
- ▶ **Capelli Tempest 40**
- ▶ **ZAR 85 SL**
- ▶ **LTN 34 Diamond**
- ▶ AB Jet 445
- ▶ Almar 820
- ▶ Grand G580
- ▶ Marlin 790 Dynamic
- ▶ Saver MG 820
- ▶ Solemar 35 Open
- ▶ Williams Minijet 280

2. Sport motorboat up to 20 feet:

- ▶ **Sea Ray SPX 190**
- ▶ **Bayliner VR6**
- ▶ **Faster 545**
- ▶ Quicksilver 505 Open
- ▶ Slomotion 5

3. Sport motorboat from 21 to 40 feet:

- ▶ **Invictus 370 GT**
- ▶ **Rivamare**
- ▶ **Chris Craft 32 Launch 32 HE**
- ▶ Atlantic Adventure 780
- ▶ Axopar 37
- ▶ Bella 700 Raid
- ▶ Beneteau Antares 7
- ▶ Beneteau Antares 8
- ▶ Grandezza 25S
- ▶ Invictus 280 CX
- ▶ Jeanneau Cap Camarat 6.5 BR
- ▶ Quicksilver 755 Activ Weekend
- ▶ Sea Ray 350 SLX
- ▶ Sea Ray SLX 400
- ▶ XO Cruiser
- ▶ XO DFNDR

4. Motor yacht up to 40 feet:

- ▶ **Greenline 36 Hybrid**
- ▶ **Princess V40**
- ▶ **Bavaria R40 coupe fly**
- ▶ Bavaria E40 sedan fly
- ▶ Beneteau swift trawler 30
- ▶ Galeon 360 Fly
- ▶ Innovezione e Progetti 35 Open
- ▶ Jeanneau Leader 30
- ▶ Jeanneau Leader 33
- ▶ Marex 310 Sun Cruiser

5. Motor yacht from 41 to 50 feet:

- ▶ **Ferretti Yachts 450**
- ▶ **Frauscher 1414 Demon**
- ▶ **Jetten Beach 45**
- ▶ Fountaine Pajot MY 44
- ▶ Princess 49 Fly

6. Motor yacht over 51 up to 60 feet:

- ▶ **Cranchi E 52F Evoluzione**
- ▶ **Arcadia Sherpa**
- ▶ **Pershing 5X**
- ▶ Absolute 50 Fly
- ▶ Fairline Squadron 53
- ▶ Sunseeker Manhattan 52

7. Motor yacht over 61 feet:

- ▶ **Riva 76 Bahamas**
- ▶ **Princess 30M**
- ▶ **Adler Suprema 76**
- ▶ **Amer 100**
- ▶ **Monte Carlo Yachts 80**
- ▶ Custom Line Navetta 37
- ▶ Elling E6
- ▶ Ferretti Yachts 850
- ▶ San Lorenzo SL78
- ▶ Sirena Yacht 64
- ▶ Sunseeker 116 Yacht
- ▶ Sunseeker Manhattan 66

SAILING YACHTS

1. Cruiser up to 40 feet:

- ▶ **RM970**
- ▶ **Salona380**
- ▶ **Ikone 750**
- ▶ Focus 750
- ▶ Sunbeam 22.1

2. Cruiser from 41 to 60 feet:

- ▶ **Elan GT5**
- ▶ **Bavaria C57**
- ▶ **Dufour 56 Exclusive**
- ▶ **Jeanneau 51**
- ▶ **Najad 450cc**
- ▶ **Hallberg Rassy 44**
- ▶ Allures 45.9
- ▶ Hanse 588

3. Performance up to 40 feet:

- ▶ **Pogo 36**
- ▶ **Dehler 34**
- ▶ **Ofcet 32**
- ▶ Reacher 780

4. Performance from 41 to 60 feet:

- ▶ **Solaris55**
- ▶ **GrandSoleil 58**
- ▶ **X Yachts X4**
- ▶ Azuree 41
- ▶ Nautor ClubSwan50
- ▶ SWAN 54

5. Sailboat over 60 feet:

- ▶ **Advanced A80**
- ▶ **Contest 67CS**
- ▶ **Oyster 675**
- ▶ BeneteauOceanisYacht 62
- ▶ Dufour 63 Exclusive
- ▶ Euphoria 68
- ▶ Hanse 675
- ▶ Mylius 76DS

6. Daysailer:

- ▶ **L30class**
- ▶ **DeCesari_R 30**
- ▶ **Tofinou10c**
- ▶ Bihan 650
- ▶ Nuva MS6
- ▶ SCOW FR18

7. Multihulls:

- ▶ **Lagoon Seventy7**
- ▶ **Bali 4.0 Lounge**
- ▶ **Outremer 4X**
- ▶ BavariaNautitechFly46
- ▶ Corsair 760
- ▶ Tricat 30
- ▶ Xquisite X5

SPECIAL CATEGORIES

+ Adriatic product of the year motorboat or sailing boat manufactured in the Adriatic region (Cro, MN, It, Srb, Si)

- ▶ **Adler Suprema 76**
- ▶ **Elan GT5**
- ▶ **Greenline 36 Hybrid**
- ▶ **Solaris 55**
- ▶ Betinska gajeta 700
- ▶ Fisherman 36 Adria Mar
- ▶ Grand Soleil 58
- ▶ Kuster 70
- ▶ Reacher 780
- ▶ Salona 380

WALKER BAY LUXURY TENDER – JADRANSKA PREMIERA
 WALKER BAY LUXURY TENDER – ADRIATIC PREMIERE

Walker Bay luksuzni tenderji bodo uporabnike zagotovo prepričali s svojim elegantnim stilom. Odlčuje jih širok trup, ki zagotavlja čvrstost in funkcionalnost. Posebnost Walker Bay tenderjev je skrbno oblikovanje vseh podrobnosti in doseganje odličnih plovnih lastnosti tudi pri visokih hitrostih.

With elegant styling and a sporty wide-body frame, Walker Bay luxury tenders are sure to exceed your expectations in both form and function. With detailed attention to hull design and hydrodynamics, Walker Bay yacht tender outperforms its class with incredible handling at high speeds, while the spacious interior of the open cockpit design lots of space for cargo and crew.

GREENLINE 36 HYBRID – JADRANSKA PREMIERA
 GREENLINE 36 HYBRID – ADRIATIC PREMIERE

Greenline flota ponosno predstavlja Greenline 36 - novega člana družine, ki kot vzhajajoče sonce zasenči ostale. To je jahta, ki je ustvarjena za užitek na morju, enostavno upravljanje pa jo naredi primerno za vsakega ljubitelja navtike. Njen usklajen, moderen in hidrodinamičen dizajn ter dovršene tehnične lastnosti zagotavljajo izjemno varčno plovbo pri vsaki hitrosti in neverjetno stabilnost v še tako dinamičnih pogojih. Vse te lastnosti dopolnjujejo izjemno udobje, ki ga nudi notranjost Greenline 36. Panoramski razgled salona daje poseben občutek odprtosti in povezanosti z naravo in okolico. Prostornost kabin je še dodatno poudarjena s številnimi okni, ki poskrbijo za veliko dnevne svetlobe.

The all-new Greenline 36 Hybrid, also the Adriatic Boat of the Year 2017, is made to enjoy, easy use and to satisfy any boat enthusiast. Greenline 36 Hybrid is a rising sun in its range and class in all aspects. Features of this yacht are above all expectations, the new hull design is so efficient that can be powered effortlessly through rough waters, the interior is spacious, light and highly specced and a contemporary trawler style exterior with a classic edge turned heads wherever we want. Because of the constant feedback of users from all over the world, the design of the Greenline 36 Hybrid is so well refined, improved in every single point: from boarding the boat to hydrodynamics, from seaworthiness with low consumption to speed and stability.

BENETEAU OCEANIS 38.1 – JADRANSKA PREMIERA BENETEAU OCEANIS 38.1 – ADRIATIC PREMIERE

Jadrnica Beneteau Oceanis 38.1 domiselno združuje funkcionalnost, zmogljivost in eleganco in na tak način dosega širok krog uporabnikov. Koncept plovila ponuja presenetljivo potovalno udobje in stabilnost pri plovbi. Palubna oprema je dobro razporejena, kokpit pa je zaradi loka dobro prehoden in varen. Oceanis 38.1 je zasnovan z rešitvami, ki so značilne za večja plovila, zato se omenjena jadrnica na vodi obnaša izjemno suvereno. Prostor pod palubo zaradi funkcionalne ureditve lahko sprejme tudi do 8 potnikov in zato je ta jadrnica izjemno iskana tako med ponudniki charterskih storitev kot tudi med najemniki.

Oceanis 38.1, which cleverly combines practical features, performance, and elegance on boat sizes where function generally outweighs personalization: the Oceanis range continues to stand by its desire to offer a wide choice to demanding customers. Chinned hull offers particularly surprising cruising comfort. Good and taut to aft and low on the water, the rigidity under sail of this cruiser takes her further and faster, with exceptional stability. It is a real joy to have two helm stations, a mainsail arch and a huge swim platform on a sailing yacht this size. For the Italian design team, the challenge was to multiply the living spaces in the saloon and offer greater privacy in the owner cabin, while maintaining the visual perspective that her opening to the bow offered in previous versions. The new L-shaped galley makes a facing seat saloon arrangement possible. The space has been well optimized to allow eight people to sit around the table.

TEMPEST 570 – JADRANSKA PREMIERA TEMPEST 570 – ADRIATIC PREMIERE

Tempest 570 je najnovejši izdelek italijanskega proizvajalca športnih plovil Cantiere Capelli. Gre za okreten in sodobno oblikovan športni gumenjak, ki ima zelo praktično urejen prostor za navigacijo in ponuja veliko možnosti za hrambo opreme in prtijage. Poleg bogate standardne opreme je na voljo različna dodatna oprema plovila, ki bo zadovoljila tudi najbolj zahtevne uporabnike.

Capelli Tempest is a 5,70 mt long RIB with modern lines and well-arranged volumes. The stern area is defined by a wide driving bench with movable backrest for a double driving position. It offers easy lateral access on the side of the console leading to the bow area with a large solarium that can be enlarged by the additional bow cushion. A comfortable seat built in the structure of the console is oriented towards bow. Equipment can be stored in the wide lockers. There are many standard features such as compass, steering console, GRP bow pylon, steering bench, bilge pump, ladder, fuel tank.

ADLER YACHT SUPREMA FLY – JADRANSKA PREMIERA ADLER YACHT SUPREMA FLY – ADRIATIC PREMIERE

Najnovejši jadranski navtični proizvod, ki je dobil tudi letošnjo nagrado "Adriatic nautical project of the year 2017", jahta ADLER SUPREMA flybridge je dolga 76 čevljev, izdelana je iz karbonskih vlaken in ima hibridni pogon. S svojo inovativno obliko, pogonom in napredno tehnologijo premika meje možnega. Zasnovali in izdelali so jo vodilni evropski strokovnjaki ladjedelske, letalske in avtomobilske industrije. Dizajn zunanjih linij oblikovalskega studia Nuvolari-Lenard je pravi magnet za oči. Močne linije in športni profil na jahti te dolžine so zagotovilo za obilico uporabnega prostora. Na podlagi bogatih izkušenj je ekipa, ki je izdelala jahto, posebno pozornost posvetila tudi vprašanju varnosti med plovbo. HM dizelsko-električni hibridni pogonski sistem jahte Suprema sestavljajo karbonski propelerji z dvema dizelskima pogonskima agregatoma Caterpillar in z dvema visoko učinkovitima električnima enotama ATE 100 kW, ki zagotavljata 60 minut tihega električnega pogona ob hitrosti 8 vozlov (polnjenje traja eno uro). V pogonu brez emisij in vibracij lahko uživamo vse do hitrosti 10 vozlov, ko pa je potreben hiter odziv, lahko Suprema doseže hitrost vse do 28 vozlov.

The newly launched full-carbon, hybrid propulsion 76 feet yacht ADLER Suprema flybridge, one of 2017 "Adriatic Boat of the Year Award" winners, is breaking barriers with its innovative design, hybrid propulsion system and advanced technology, created by leaders in the marine, aviation and automotive industries across Europe. Nuvolari-Lenard's Design eye catching exterior lines are featured on some of the world's most legendary superyachts. Its strong lines and sporty profile also offer a large amount of exterior space for a yacht of this length. Adler Suprema has one of the largest Flybridge in its class, emphasising the enjoyment of the outdoor space to those on board. The high-capacity batteries will last all day, meaning guests can enjoy the full suite of facilities without need to start the generator or the engines. The Suprema's HMS diesel-electric hybrid propulsion system includes carbon propellers with twin diesel Caterpillar engines and twin ATE high-efficiency 100kW e-units, which alone can provide up to 60min of silent electric propulsion at 8 knots (with a full recharge taking an hour). Emission and vibration-free propulsion can be achieved up to the speed of 10 knots, but when the situation calls for speed, the Suprema can provide a maximum output of up to 28 knots and a high-speed cruising of 22 knots.

ABSOLUTE 58 FLY – EVROPSKA PREMIERA ABSOLUTE 58 FLY – EUROPEAN PREMIERE

Italijanska ladjedelnica Absolute Yachts je pravkar dokončala dolgo pričakovano motorno jahto Absolute 58 Fly. To 17 metrov dolgo plovilo poganja najnovejši pogonski sistem Volvo Penta D8-800 IPS in ima posebno "ISS Absolute" strukturo, ki zagotavlja vrhunske plovne lastnosti, nizko porabo goriva, okretnost, tiho plovbo in odsotnost vibracij.

The Absolute 58 Fly arises from the union between ergonomics and technology. In this yacht, the values of the biggest luxury motor yachts find an exciting implementation. The IPS-800 systems and the celebrated Absolute hull ensure low consumption, maneuverability, silent movement, reliability, in order to offer to sea-lovers a seagoing experience guided by pleasure and safety on all sides. The comfort expresses itself through a space optimized in every detail, studied to host seven guests with a maximum capacity of fourteen people.

The livability of the spaces is even easier thanks to the sliding doors, the rounded edges, the wide and rectangular beds and the floors, almost without obstacles.

Ljudski avto sedanjosti, s tehnologijo prihodnosti!

Popolnoma novi i30

Kaj je tisto, zaradi česar avtomobil postane ljubljenec vseh ljudi? Vse se začne s preprosto brezčasnim dizajnom. Ta se nadaljuje z vrhunsko povezljivostjo, varnostjo in novim naborom zmogljivih turbo motorjev, ki zaokrožijo podobo modernega avta za napreden življenjski slog. Popolnoma novi Hyundai i30 je privlačen prav vsem. Zakaj torej premikamo meje? Ker so se pravila iz včeraj na danes spremenila, tako kot vi. Izberite avtomobil, ki ga obožujejo vsi – popolnoma novi i30.

Povprečna poraba goriva: 3,4 - 5,6 l/100 km, emisije CO₂: 89 - 130 g/km.

Emisije onesnaževal zunanjega zraka iz prometa pomembno prispevajo k poslabšanju kakovosti zunanjega zraka. Prispevajo zlasti k čezmerno povišanim koncentracijam prizemnega ozona, delcev PM₁₀ in PM_{2,5} ter dušikovih oksidov.

Slika je simbolna. Več informacij dobite pri pooblaščenih prodajalcih vozil Hyundai. Pogoji garancije in podatki o specifični porabi goriva in emisijah CO₂ so na voljo na www.hyundai.si

5-letna garancija Hyundai brez omejitve prevoženih kilometrov velja za vsa nova vozila Hyundai prodana preko pooblaščenega trgovske mreže končnim kupcem, kot je navedeno v servisni knjižici vozila.

ELAN GT5 – JADRANSKA PREMIERA

ELAN GT5 – ADRIATIC PREMIERE

Jadnica Elan GT5, meri 12,81 metrov in je naslednjica Elanovih jadrnic S5. Serija GT odlikujejo najboljše oblikovalske in gradbene izkušnje, ki jih poznamo pri do sedaj mnogokrat nagrajenih Elanovih plovilih. Jadnica GT5 je zasnovana tako, da jo lahko upravlja tudi manjša posadka. Nadzor nad plovlom je mogoč s položaja krmarja v kokpitu, kar omogoča večjo varnost posadke med plovo. Velik in prostoren kokpit ter kopalna ploščad sta namenjena sproščenim morskim užitek. Ravna linija palube omogoča hiter in varen prehod naprej, kjer so postavljene udobne blazine namenjene sončenju. Podpalubni prostor, ki ga ponuja GT5 je edinstven v razredu performance plovil. Plovilo odlikuje veliko svetlobe, zračen in prostoren dnevni prostor ter stojna višina preko 2 metrov. GT5 je na voljo z dvema ali tremi kabinami in eno kopalnico z ločeno prho ter možnostjo druge kopalnice z WC-jem spredaj ob lastniški kabini. GT5 offers a premium lifestyle on a higher volume yacht, based on the Elan award winning performance hulls, with a deck saloon and enhanced cockpit to give a truly luxurious performance cruiser with the swim platform, options of a cockpit galley featuring a fridge, grill and other amenities common on much larger yachts. The GT5 cockpit is designed for enjoying time with family and friends, offering ample seating area and different innovative cockpit table options converting the seating into a sunbathing lounge. A clean deck design ensures fast and safe passage forward, and enables plenty of sunbathing area with dedicated cushions on the foredeck. The space below deck is unique in her class. The galley forward offers ample storage space with a customizable corner to be equipped individually for each owner. The 180-degree panoramic skylight with the window in window feature, two hatches and one large central hatch, the saloon can be ventilated at all times.

CRANCHI E 52 F AND E 52 S EVOLUZIONE – JADRANSKA PREMIERA

CRANCHI E52F AND E52S EVOLUZIONE – ADRIATIC PREMIERE

Legendarna italijanska ladjedelnica CRANCHI je na Internautici pripravila kar dve zanimivi premieri motornih jaht iz novega razreda Evolution / Evoluzione, **E 52 F in 52 S**. Razvoj je torej karta, na katero stavijo pri proizvajalcu, ki ima eno najdaljših tradicij neprekinjenega obstoja med italijanskimi proizvajalci in znova preseneča z izvirnostjo in inovativnostjo svojih plovil. Jahti vrste E 52 F in S - Evoluzione sta nastali kot plod uspešnega sodelovanja s svetovno znanim Italijanskim oblikovalcem Christianom Grande, ki je uspel zasnovati mnogo novih oblikovnih in praktičnih rešitev na plovilu, ki je že pregovorno izdelano po najvišjih kakovostnih merilih. O tem, da CRANCHI zagotavlja najvišje standarde varnosti in kakovosti plovo in seveda udobja pa obiskovalcem Internautice seveda ni potrebno posebej razlagati, saj si vsako leto lahko ogledajo široko paleto različnih modelov in jih tudi preizkusijo.

The Cranchi E52F and E52S models named Evoluzione were developed in cooperation with the famous Italian architect Christian Grande. This collaboration has especially increased the beauty of the furniture. Many modern and innovative forms and materials are used to assure the premium comfort and the outstanding elegance of this yacht. In one word, CRANCHI have increased the charm that only Italian design can express. The 52F flybridge yacht fully express an impressive area on the fly and in addition to comfortable sunbath offers a futuristic bridge, with two forward-facing seats (driver and co-driver). A helm with many electronics devices and a joy stick for easy yacht handling without a rudder and the throttle. All the new models from Cranchi feature as well a cosy space on the foredeck, set with a front-facing couch and a solarium.

BAVARIA CRUISER 34 – JADRANSKA PREMIERA

BAVARIA CRUISER 34 – ADRIATIC PREMIERE

Bavaria predstavlja najmanjši Cruiser, model 34, ki pomeni nov koncept jadrnic te vrste. Z dolžino pod 10m, tremi kabinami in dvema krmilnimi kolesi, ponuja ta jadrnica veliko več, kot so bili uporabniki vajeni do sedaj. Škota glavnega jadra je iz kokpita prestavljena pred sprayhood, ob mnogih drobnih izboljšavah je tudi kokpit popolnoma prenovljen in ergonomsko še prijaznejši do jadrca. Privlačna cena te moderne jadrnice in nizki vzdrževalni stroški zaradi dolžine pod 10m bodo zagotovo dober motiv za marsikoga, ki razmišlja o nakupu plovila take vrste.

The new Bavaria Cruiser 34 offers more space and more comfort than ever before with a bigger cockpit, dual helms and ergonomically designed seating. This is the first time the entry level Bavaria cruiser has been offered in twin helm! The first advantage of the dual helm is optimizing the view of the sails, course and crew offering not only a great safety feature but increased sailing pleasure. Another advantage is the cockpit offering a lot of space leading from the bathing platform up to the companionway. So at anchor or mooring more space is offered for the on-board living lifestyle. Trimming the sails is an easy experience for the crew. The main sheet is led on the roof and the fore sail is trimmed via winches from the cockpit, all of which are conveniently within reach of the helmsman. Below deck, the Cruiser 34 offers a spacious and comfortable layout with space for friends and family in the two cabin version.

EXPLORER 58 PILOT HOUSE – JADRANSKA PREMIERA

EXPLORER 58 PILOT HOUSE – ADRIATIC PREMIERE

Ladjedelnica Explorer Motor Yachts predstavlja jadransko novost, polizpodrivno, sodobno oblikovano 18 metersko motorno jahto Explorer 58 Pilot House, plovilo, ki ponuja visoko zmogljivost, veličastno razkošje in veliko prostora za zabavo. Polizpodrivni tip trupa zagotavlja plovilo izjemno stabilnost in zmanjšano porabo goriva. Twin turbo dizelska pogonska agregata omogočata tudi višje hitrosti kadar je to potrebno ali pa učinkovito gospodarjanje z gorivom, ko si med plovo želite sproščeno opazovati svet okoli vas.

Explorer Motor Yachts will showcase the immaculately crafted 18 meter Explorer 58 Pilot House yacht.

The Explorer 58 Pilot House's semi-displacement hull design delivers exceptional stability and fuel economy. Twin turbo diesel engines offer a turn of speed when needed or superb economy when you simply want to relax and watch the world drift by. There is a living space to satisfy every need; an expansive galley and a handsome dinette at the pilot house level and a large, luxurious saloon that affords clear views from the helm to aft deck. Three comfortable cabins include a full-beam master suite. Step on deck and you have options of a large open cockpit for entertaining, comfortable walk-around decks and an enormous flybridge that sets an impressive stage with abundant seating and a large wet-bar with electric grill, sink and refrigeration.

PRINCESS 49 – JADRANSKA PREMIERA PRINCESS 49 – ADRIATIC PREMIERE

Princess 49 je nova prestižna motorna jahta britanskega proizvajalca z dolgoletno tradicijo. Plovilo poganja najnovejši Volvo-Penta IPS pogonski sistem, ki je integriran v sodoben, modificiran, izrazito globok V-trup, kar med drugim zagotavlja prijetno plovbo in okretnost. Družabno zasnovan fly bridge ponuja veliko uporabnega prostora za čas med plovbo in seveda predvsem ko je plovilo v mirovanju. Blagovna znamka Princess zagotavlja visoke Britanske standarde kakovosti oblikovanja in izgradnje plovil, notranjost pa nudi vse udobje, ki ga pri jahti te kakovosti uporabnik pričakuje.

Princess 49 is sublimely enjoyable motor yacht equipped with the latest IPS pod drive system and a new modified deep-V hull, providing ease of handling and maneuverability. Socially arranged fly bridge is offering a twin helm seat, convertible L-shaped sofa and generous seating aft. The spacious deck saloon comes alive with light from the panoramic windows and has an ingenious aft-galley layout. Below deck, there's a full beam owner's stateroom, a forward guest cabin with the option of scissor berths and a generous two berth starboard cabin.

DUFOUR 56 EXCLUSIVE – JADRANSKA PREMIERA DUFOUR 56 EXCLUSIVE – ADRIATIC PREMIERE

Jadrnico Dufour 56 Exclusive odlikujeta predvsem udobnost in prestiž. Ladjedelnica Dufour je septembra 2016 na navtični razstavi v Cannesu prvič predstavila novo linijo jadrnic poimenovano Exclusive v katero sodi tudi jadrnica Dufour 56 Exclusive, ki je premišljeno oblikovana in na 17 metrih združuje udobnost, dinamične linije in prestiž. Dufourji slovijo po odličnih plovnih lastnostih, kar seveda velja tudi za Exclusive linijo, inovacije, design, kakovost, hitrost in elegance pa so odlike, ki jih nikakor ne moremo zanikati. Oblika trupa Dufour 56 Exclusive je športna, vendar s tem plovilo ne izgublja stabilnosti temveč jo celo povečuje. Na krovu nudi udobje, veliko udobnih površin predvsem v kokpitu pa omogoča tudi široka krma s pravo kuhinjo.

Dufour Yachts will showcase new Dufour Exclusive 56, a stunning yacht that meets the most stringent requirements for luxury and comfort. This elegant, modern 17-meter sailing yacht with its dynamic lines epitomises luxury, brilliantly marries refined design with remarkable innovations.

The Dufour Exclusive 56 sports an extremely balanced hull, with a powerful aft section, a reduced wetted surface area and appendages perfect for cruising. Its high ballast ratio and hull stability enable the yacht to support a powerful rig without compromising on comfort and safety on board.

SEA RAY 250 – JADRANSKA PREMIERA SEA RAY 250 – ADRIATIC PREMIERE

Legendarni ameriški proizvajalec športnih čolnov SEA RAY predstavlja nov model Sea Ray 250 SunSport. Gre za popolnoma nov izdelek najpopularnejšega ameriškega izdelovalca čolnov, ki je naslednik popularnega modela 240 SunSport, ki je kraljeval na navtičnih trgih v preteklem desetletju. Model 250 SunSport ponuja veliko bivalnega prostora vključno s kabino in bo s svojimi atraktivnimi lastnostmi zadovoljil še tako zahteven okus.

With a standard backrest-equipped sun pad and a performance-designed hull, the Sun Sport 250 lives up to its name. The cabin welcomes guests with a dinette/V-berth and portable head; the feature-packed cockpit includes a choice of seating plans. Sun Sport 250 features an intuitive dash instrument panel with backlit glass gauges for great visibility and lasting durability.

The new model forms a unique design, which will delight even the most demanding lovers of aesthetics.

GRAND GOLDEN LINE 850 – JADRANSKA PREMIERA GRAND GOLDEN LINE 850 – ADRIATIC PREMIERE

Gumenjak Golden Line 850 je med največjimi izdelki proizvajalca GRAND. To plovilo združuje njihove dolgoletne izkušnje in najsodobnejše trende v ladjedelništvu. Izjemne plovne lastnosti in ogromen rezervoar (300l) ter veliko število dodatnih elementov, naredijo gumenjak Golden Line 850 čoln, ki je primeren za dolgo plovbo in daljša potovanja. Je v celoti izdelan iz Orca Hypalon materialu. Priporočen motor, 300 konjskih moči, z lahkoto poganja katerokoli dovoljeno obremenitev. Poleg pestre opreme, ki jo čoln vsebuje v standardni izvedbi, ponuja tudi bogate možnosti dodatne opreme.

GRAND Golden Line 850 is the biggest model from the line of GRAND inflatable boats, built by latest standards in the shipbuilding industry. The exceptional seaworthiness, installed 300 liters fuel tank, and many additional options make the boat a perfect choice for planning long trips without worrying about the bad weather conditions or fuel shortage. G850 tubes are made entirely from Hypalon. Recommended engine (300HP) easily drives the boat with any permitted loading. Golden Line G850 offers many standard features and an impressive list of optional equipment which will satisfy any customer's needs.

GALA BOATS – JADRANSKA PREMIERA
 GALA BOATS – ADRIATIC PREMIERE

Gala je novo ime gumenjakov na Jadranu. Vsi čolni GALA so zasnovani v kanadskem koncernu Gala Marine International, ki se lahko pohvali z več kot dvajset letnimi izkušnjami. GALA je razvila in trgu ponudila unikaten patent trupov z zmogljivostmi, ki z dosedaj znanimi niso primerljive. Varjen aluminijasti trup in še posebej izrazit del podaljšanega zadnjega dela, lajša vožnjo in ponuja hitrejše potovanje. Vožnja še vedno ostaja povsem suha, prav tako pa se zmanjša škropljenje za čolnom, kar je pri gumenjakih seveda zelo pomembno.

GALA boats are a new name of inflatable boats with aluminum bottom. Each GALA boat is designed in Canada by GALA MARINE INTERNATIONAL with its 20 years of experience of designing and development of first class inflatable boats and RIBs. GALA is creating and offering unique patented type of hull with exceptional performance, like no one before. The welded aluminum hulls are coming with impressive extensions of the bottom behind the transom, what works like passive trip tabs, makes getting on place easier and faster, and makes your ride completely dry as it is sufficiently reduces water spray generation at the back.

FERRETTI YACHTS 850 NEW – JADRANSKA PREMIERA
 FERRETTI YACHTS 850 NEW – ADRIATIC PREMIERE

Robustna in zapeljiva, Ferretti Yachts 850 New vas zapeljuje od trenutka, ko se je vaš pogled ustavil na njej. Jasno definiran in dinamičen profil daje jahti močan in drzen videz. Krov je zasnovan tako, da je izkoristek prostora te 26 meterske jahte izjemen. Velika okna v trupu in salonu zagotavljajo dovolj prijazne dnevne svetlobe. Jahta je opremljena s posebnim mehanizmom, ki spremeni krmni del v elegantno platformo za kopanje, ki jo je mogoče spustiti celo pod vodno gladino, kar hkrati pomeni praktično rešitev za manevriranje s tenderjem

Rugged and seductive, Ferretti Yachts 850 New dazzles you from the moment you set eyes upon it, thanks to its clean and dynamic profile featuring striking, clear-cut angles giving you a powerful and bold look. With a hull measuring 26 meters and a construction length below 24 meters, the new flybridge can be registered as a pleasure craft. The design of the main deck enhances the overall experience, thanks to a single full-height window which cuts through the entire superstructure, plus the large front and side dome at the raised helm station. The yacht is equipped with a mechanism whereby the transom door swings open to provide a swimming platform, which becomes a beach area and can be lowered below the water surface, offering a large submersible platform for guests as well as a practical solution for the crew's tender moving operations. The yacht is a magnificent maxi loft surrounded by the sea.

HYUNDAI IONIQ – URADNO VOZILO INTERNAUTICE 2017
 HYUNDAI IONIQ – EXCLUSIVE CAR OF INTERNAUTICA 2017

Novi Hyundai IONIQ je prvi avtomobil na svetu z enako karoserijo za hibridni, priključno hibridni in povsem električni pogonski sklop. IONIQ odlikujejo brezkompromisne vozne lastnosti, izjemen dizajn, celovit varnostni sistem in je najboljšje jamstvo za sproščeno vožnjo. Vozne zmogljivosti IONIQ-a so med najboljšimi v segmentu. Vodljivost in vzmetenje, ob sočasnem učinkovitem dušenju hrupa in tresljajev so uravnanji za najzahtevnejše voznike. Odzivnost in natančnost volana je pri vseh IONIQ-ih na najvišji ravni. Dizajn IONIQ-a se ne odraža le v privlačni silhueti, marveč tudi v prostorni notranjosti in prtljajniku. Električni motor IONIQ hibrida doseže največjo moč 32 kW (43,5 KM) in največji navor 170 Nm.

Ena ključnih značilnosti tega vozila je inovativna uporaba recikliranih, oziroma do okolju prijaznih materialov. Notranje obloge vrat so izdelane iz naravne plastike, kombinirane z lesnim in vulkanskimi prahom. Po izgledu in na dotik so povsem enake kakovosti, kot običajni materiali za te dele notranjosti. Ob petletni garanciji brez omejitve prevoženih kilometrov za celotno vozilo pa velja še posebna, Hyundaijeva 8-letna garancija, oziroma garancija do 200.000 prevoženih kilometrov za visokonapetostno baterijo.

The 2017 Hyundai IONIQ is a compact five-door hatchback that breaks new ground among fuel-efficient cars by offering three separate powertrains: hybrid, all-electric, and plug-in hybrid. Several makers offer plug-in variants of conventional hybrids, but Hyundai is the first to add a battery-electric model that has no engine at all to its hybrid lineup.

IONIQ gives you the power of choice. Each model, all-electric, hybrid and plug-in hybrid, is based on a dedicated vehicle platform designed to enhance efficiency, comfort and handling. Plus, Blue Drive(R) technology gives you lower pollution and higher performance. Hybrids offer efficiency. Electric cars are brilliant. But IONIQ steps things up with thoughtful amenities, advanced safety features and ingenious design. The result is a more rewarding drive. The intelligent use of aluminium and advanced high-strength steel gives every IONIQ model an extremely light and rigid body structure. This blend of strong weight-saving materials helps every IONIQ model use less energy as it moves down the road. Additionally, less weight means higher MPG with better range and acceleration. Even the interior of the IONIQ shows an eco-conscious side. All from the bio-fabrics to the recycled plastics are used to create the headliner, carpeting and door trim. These pleasing surfaces and textures are the result of the inventive use of eco-friendly materials such as sugar cane and volcanic stone.

Razmišljate o predstavitvi svojega podjetja na uveljavljenem sejmu doma ali v tujini?
Morda pa o pripravi kakšnega drugega dogodka, kongresa, prireditve?
Tehtate, kako izbrati pravega izvajalca zelene storitve?

Nudimo široko paleto talnih oblog za organizatorje in izvajalce prireditev.

Talna obloga z zaščitno foljo, ognjevarno certificirano, potiskane talne obloge (*kamen ...*), talna obloga z bleščicami, PVC talna obloga (*imitacija Alu pločevine*), umetna trava, investicijski program (*Hoteli...*).

Podjetje Interexpo je pravi odgovor na zastavljene dileme.

V svojem 20-letnem delovanju se je uveljavilo, kot eden izmed vodilnih oblikovalcev in postavljalcev razstavnih prostorov in različnih drugih dogodkov (kongresi, poslovna srečanja, event, ...).

S pestro celostno ponudbo storitev (postavitve, najem, transport, špeditorske storitve, skladiščenje, uporaba najnovejših računalniških tehnologij pri 3D projektiranju) in lastnim sejmskim materialom, se odlikujemo po prilagodljivosti in hitri odzivnosti. Naša ekipa se sestoji iz preskušanih tehnikov, arhitektov in monterjev, ki posedujejo potrebna znanja za načrtovanje in opremljanje sejmskih in kongresnih prostorov od oblikovanja celostne podobe (strukture, pohištvo, ...), do računalniške grafike.

Družba se je skozi dve desetletji razvoja uveljavila, kot globalni ponudnik tekstilnih talnih oblog za sejme, prireditve in kongrese, kjer s svojimi kreatorji skrbi za uvajanje aktualnih svetovnih modnih in ekoloških trendov.

Vabimo Vas, da nas obiščete na naši spletni strani www.interexpo.si ali pa nam pišete na naslov posta@interexpo.si, z veseljem vam bomo odgovorili in svetovali pri vseh vaših vprašanjih ter vam ponudili strokovno rešitev, ki vam jo bomo tudi izrisali.

▶ USTANOVNA SKUPŠČINA SMIA

KAJ: SMIA (Slovenian Marine Industry Association) je stična točka slovenske navtične industrije. To je strokovno združenje podjetij, ki delujejo na področju nujenja storitev in proizvodov v navtični industriji in ki seveda prispevajo k izvozu slovenskega znanja.

Zakaj: Ustanovitev SMIA je bila logična posledica večletnega skupinskega nastopa slovenskih podjetij na METS - največjem sejmu na svetu na področju ponudbe opreme za plovila, ladjedelnice in marine. SMIA omogoča tudi učinkovitejše sodelovanje v okviru svetovnega združenja navtične industrije ICOMIA (International Council Of Marine Industry Associations), ki v osnovi povezuje nacionalna ali regionalna združenja s področja navtične industrije.

Kako: Ustanovni člani so v drugi polovici lanskega leta dorekli kodeks združenja in ga slovesno podpisali na METS 2016 v pristonosti slovenskega veleposlanika na Nizozemskem NE Romana Kirna.

Kodeks združenja SMIA uokvirjajo štiri stebri sodelovanja: poštenost, kooperativnost, odgovornost in splošni interes. Kot osnovni cilj pa opredeljuje konkretno povečanje izvoza storitev in proizvodov članov kot posameznikov in združenja v celoti.

SMIA zagotavlja pomoč pri reševanju izzivov s katerimi se srečujejo podjetja na tujih trgih in pri zastopanju napram državnim institucijam pri kreiranju pravil poslovanja in podobnega.

SMIA na dolgi rok zagotavlja povečanje prepoznavnosti slovenskega znanja na področju navtične industrije in posledično seveda izboljšanje dodane vrednosti v izvoznih storitvah in proizvodih.

Na letni skupščini SMIA, ki bo potekala v okviru INTERNAUTICE bodo člani izvolili ožje vodstvo in sprejeli akcijski plan za obdobje naslednjih dveh let.

Do današnjega dne so pristopili k združenju SMIA naslednja podjetja: IRM. (www.marinamaster.si), GS e (www.gs-composite.com), Pteam (www.pteam.si), Lx nav (www.lxnav.com), Simarine (www.simarine.net), Sandi line (www.sandiline.com), Elektro Štumpfl (www.elektro-stumpfl.si), Saitech, (www.saitech.si/), SMT (www.smt.si/), J&J design (www.jnj.design/), Yacht Home (), Seaway Portorož (www.seawayportoroz.com), Astel-marine (www.astel-marine.com), Rafis (www.mynavybar.com), Sentinet (www.sentinelmarine.net/), Best Boats Yachting (www.bby.si), Internautica (www.internautica.net), Val-Navtika (www.val-navtika.net)

▶ SMIA CONSTITUTION

WHAT: The Slovenian Marine Industry Association (SMIA) is the point of contact for the Slovenian nautical industry. This is a professional association of companies that provide products and services in this sector, and contribute to the export of Slovenian know-how.

WHY: SMIA was founded as a logical consequence of the several years' joint participation of Slovenian companies at METS – the largest marine equipment fair in the world, offering equipment for boats, shipyards and marinas. SMIA facilitates efficient cooperation within the frame of the International Council of Marine Industry Associations (ICOMIA), the basic task of which is to connect national or regional associations with a focus on the nautical industry.

HOW: In the second half of the last year, the founding members finalised the code of association and formally signed it at METS 2016 in the presence of Slovenian ambassador to The Netherlands, HE Roman Kirn.

The SMIA code of conduct rests on four pillars: honesty, readiness for cooperation, responsibility and general interest. The basic goal is defined in terms of increasing the export of products and services, as provided by members as individual companies and the association as a whole.

SMIA provides assistance in dealing with the challenges faced by Slovenian companies in foreign markets, represents them in front of state institutions, helps in creating business rules, and so forth.

In the long term, SMIA works to increase the visibility of Slovenian know-how in the nautical industry, and consequently giving higher added value to the products and services exported by this sector.

At the SMIA annual general meeting, which will take place during Internautica, its members will elect the leading team and adopt an action plan for the next two years.

To date, the following companies have joined SMIA:

IRM. (www.marinamaster.si), GS e (www.gs-composite.com), Pteam (www.pteam.si), Lx nav (www.lxnav.com), Simarine (www.simarine.net), Sandi line (www.sandiline.com), Elektro Štumpfl (www.elektro-stumpfl.si), Saitech (www.saitech.si), SMT (www.smt.si), J&J design (www.jnj.design), Yacht Home (), Seaway Portorož (www.seawayportoroz.com), Astel-marine (www.astel-marine.com), Rafis (www.mynavybar.com), Sentinet (www.sentinelmarine.net), Best Boats Yachting (www.bby.si), Internautica (www.internautica.net), Val-Navtika (www.val-navtika.net)

SMIA

Slovenian Marine Industries Association

▶ **Izdaja knjige:
Z morjem na Ti
Mitja Zupančič**

Morje so osvajali že stari Grki, ki so v 4. stol. pred Kristusom pluli v teh vodah. Za njimi je ostal Diomedov otok Palagruža, ostalo je polje Farosa in Stari grad na otoku Hvaru, ki je nedavno slavil 2400-letnico ustanovitve in imenovanja. V času velikega Rima so osvajalci gradili svetilnike, tudi tistega v Tergestu, kot so nekoč imenovali Trst. Danes stara tržaška lanterna stoji na ostankih rimske trdnjave.

Povsod, kjer so se naselili ljudje, je človeštvo ustvarjalo življenjske skupnosti, ki so pomembno prispevale in krojile usodo človeka, ujetega v času in prostoru. Slovenci imamo tisočletno pomorsko zgodovino, ki se je spisala med reko Timavo in Trstom, imamo tudi svoja avtohtona plovila. Usodno nas je zaznamovala avstroogrska krona, takrat je bil Trst tudi drugo mesto v monarhiji. Južni krak železnice med Trstom in Dunajem je narekoval tudi železniško povezavo med Zeleniko v Črni gori in Budimpešto. In če je reka Timava vselej veljala kot mejnik med romanskim in slovanskim svetom, je enako vlogo prevzela reka Bojana pri Ulcinju, le da je branila monarhijo pred Turki. Morda veste, da je turški poveljnik v 16. stol. v Ulcinju naselil okoli 400 alžirskih piratov, in da je veliki pomorski bitki pri Visu poveljeval sin slovenskih korenin, tedaj še admiral Wilhelm von Tegetthoff, in da je nam Slovincem tako ljuba »klapska« glasba v resnici direktna vez z našimi starimi, kajti oni so peli, kot so živeli, in živeli so, kot so peli?

Najstarejša ribiška skupnost na Jadranu pripada komiški Issi (otok Vis). Tam se je rodila tudi gajeta falkona – komiška falkuša, s katero so odhajali ribiči na odprto morje, da bi z ulovom lahko preživeli svoje družine. Stare barke so bile rojene s posipanjem pepela po kobilici novega čolna. Barka je dobila ime, pripadala je družini in gospodarju, za njim se je pogosto povrnila nazaj v pepel. Zaradi potrebe po sporazumevanju se je na morju izoblikoval svobodni jezik, izoblikovale pa so se tudi navade in običaji, ki ne poznajo političnih državnih meja, ampak pripadajo regiji in ljudem, ki živimo ob morju, z morjem, in smo z njim na ti.

▶ **Book promotion:
Up Close with the Sea
Mitja Zupančič**

The seas were conquered already by Ancient Greeks, who sailed on these waters in the 4th century BC. Their remains are Diomed's island Palagruža, the Farosa field and Stari grad on the island Hvar, which recently celebrated 2400th anniversary of its foundation and naming.

In the times of the Roman Empire the conquerors built lighthouses, also the one in Tergestu as Triest used to be called. Today the old lantern of Triest stands on the remains of a Roman fortress.

Everywhere where people settled down, they created life communities which significantly contributed to and decided about the fate of men caught in time and place. We Slovenes have a thousand year old maritime history, located between the river Timava and Triest. We also have our own indigenous vessels. We were fatally marked by the Austro Hungarian rule when Triest was the second most important city of the monarchy. The southern line of the railway between Triest and Vienna led to a railway connection between Zelenika in Montenegro and Budapest. As the river Timava has always presented the boundary between the Romance and Slavic worlds, the river Bojana at Ulcinj had a similar role, protecting the monarchy from the Turks. You might know that in the 16th century a Turkish commander populated Ulcinj with about 400 Algerian pirates and that a major naval battle near Vis was led by admiral Wilhelm von Tegetthoff, a man with Slovene roots. And do you know that the music of »klape« is so dear to Slovenes because it is a direct link with our ancestors who sang as they lived and lived as they sang?

The oldest fishing community of the Adriatic belongs to Issa of Komiža (island Vis). It is the place where gajeta falkona, a falkuša of Komiža, with which fishermen went to the high seas to maintain their families, was born. These old boats were born when the keels of a new boat was powdered with ashes. The boat was named and it belonged to the family and the master. After his death, it frequently returned to the ashes. Out of the need for communication at sea an independent language was created. Besides, there are habits and customs which do not know political frontiers. Instead, they belong to the region and people who live at the sea, with the sea and are on the first name terms with it.

▶ **ŽIVETI Z MORJEM**
* **bodi zvezda in varuj okolje**

Slovensko morje in morsko obrežje sta zaradi plitvosti, spremenjenega morskega dna in obrežja zaradi človekovih dejavnosti (gradnje, ribolov, plovba, odpadke) izredno krhka in občutljiva. Še posebej so pod izrazitim pritiskom obalna območja. Prekomerne ali neustrezno izvajanje dejavnosti na morju, ob obali in v prispevnem območju obalnih rek pa že resno ogrožajo naše morje in obalo.

Projekt "Živeti z morjem" je na pobudo Ministrstva za infrastrukturo – Uprave RS za pomorstvo ter Ministrstva za okolje in prostor povezal vse ključne ustanove in strokovnjake s področja varstva narave.

Namen projekta je ozaveščati širšo javnost o pomenu morja in morskega obrežja ter koristih, ki jih nudita in o pritiskih s katerimi ju ogrožamo ter trajnostnih načinih rabe in obnašanja na morju in obali.

▶ **Protect the sea, be a star!**

Various maritime activities and urbanisation cause great impacts on the sea and the coast. Only through education and raising awareness can we encourage people to use the sea and the coast in such a manner that neither their health and safety nor the well-being of marine organisms will be jeopardised.

Safeguarding and preserving the sea and the coast means creating favourable conditions for the conservation of marine life and providing a source of food and energy for future generations.

Varuj morje, bodi zvezda!
Protect the sea, be a star!

 Kopalne vode / Bathing waters

 Osnaževanje / Pollution

 Varstvo narave / Safeguarding nature

 Stanje morskega okolja / State of the marine environment

 Plovba in sidranje / Sailing and anchoring

► **Razstava slik:**
ART MANDALA ~ Sun'Sky'Sea & Universe
Sonia Trošt

Sonia Trošt je Magistra Akademije za likovno umetnost v Ljubljani, pred tem pa je diplomirala na Fakulteti za arhitekturo. Specializacije iz področij Eko umetnosti in arhitekture je izvajala doma in v tujini. (Lugano, Švica, London, Velika Britanija, Bangalore-Vrindavana, Indija).

Njeno delovanje sega predvsem na področje ekološke umetnosti. Živi in deluje na slovenski Obali. Kristalne kode vnešene v energetske slike so odsev zveznatnega neba in pozicij planetov na nebu. Projekte izvaja doma in po svetu pod univerzalnim naslovom Ecolife ART. web: <http://arhitektura-ekolife.si/art/>
Njena slika je preplet barv, oblik, naravnih materialov, swarovski kristalov, peskov.

Na Internavtici 2017 predstavlja experimentalno razstavo slik: projekcije in odseve simbolov Sonca, Morja, Neba in Vesolja, ki nas obkroža.

Skozi svet barv, občudovanja narave in iskanja prvinskih vzorcev arhitekture v okolju, ki nas obkroža, je Sonia Trošt začutila klic po ustvarjanju ART Mandal. Skozi njih se namreč pretakajo prvinske forme, vzorci ter barve našega planeta, univerzuma, tudi širših dimenzij bivanja, katerih se človek vedno niiti ne zaveda. Skozi sliko prenaša na platno najrazličnejše vibracije in energije, ki v naravi, veselju in seveda v nas samih obstajajo. Vse to tudi sedaj v vseh svojih razsežnostih upodablja skozi svet njenih ART Mandal . Eksplozija barve, form in oblik se prelivajo na njenih platnih večjih dimenzij.

Gre za pretok pozitivnih misli, idej, prenos nevidnega v svet vidnega.

Na Tv Sloveniji je vodila rubriko o umetnosti in arhitekturi ART AKT. Večkrat je potovala po Indiji, snemala tam dokumentarne filme, saj je ta dežela nabita s svetom barv, čudežnimi oblikami in predvsem z velikim duhovnim potencialom.

ART Mandala najde svoje vzorce že v Vastu Shastru, pravadni znanosti o umetnosti un arhitekturi, ki naj bi izvirala že izpred leta 3000 pred našim štetjem. Starodavne vede kakor tudi Veda Vastu Shastra so bile napisane v Sanskrtu - starodavnem jeziku, ki naj bi bil tudi izvor indoevropskih jezikov. Ti starodavni zvoki ter zapisi se pretvarjajo tudi v simbole. Določeni zvoki nosijo svoj simbol.

In prav te zvoke ter simbole raziskuje tudi Sonia Trošt v projektu ART & SOUND Mandala, z Alexom Imelijem , ki je eden izmed največjih italijanskih strokovnjakov na področju raziskovanja vokala. Skupaj odkrivata zvoke različnih pojavov v naravi , v mikro in makrokozmosu. Preko različnih znanstvenih instrumentov se ti posebni prvinski zvoki pretvarjajo v simbole. In ti simboli se razkrivajo skozi izrazito večplastno strukturo, teksturo ter svet barv Art mandal umetnice Sonie Trost.

► **Art Exhibition:**
ART MANDALA ~ Sun'Sky'Sea & Universe
Sonia Trošt

Sonia Trošt completed a Masters at the Academy of Fine Arts in Ljubljana, prior to this she graduated with a degree in Architecture. Sonia has further specialised within the area of Eco art and Eco architecture, completing works and projects both locally and internationally (Lugano, Switzerland, London, Great Britan, Bangalore-Vrindavana, India)

Sonia Trošt collection ART Mandala has been presented locally and internationally at Formaviva in Debeli rtič, Domus Medica, in Ljubljana and Internavtica 2016 in Portorož, at the Festival of Benessere in Andalo, Italy, and Lago di Molveno in Italy. The collection was also presented by Cultural Centre ROTUNDA in Koper, Eko ART Centre in Pula Croatia, the Atrija Convent in Ankaran and at the Museum of Puppetry in Ljubljana.

The Collection was also presented for Kresna Noč at the Cultural Centre of European Space Technologies (KSEVT). This presentation was accompanied with six hours of sound mandalas played by world reknowned percussionist Andrea Cantazzo from the United States of America.

Her art and images are presented from another point of view. Throughout her lifetime Sonia has been inspired and excited by the search for, and learning of, the truth of our human existence. Through the world of colour, admiration of nature and the search to find the primal patterns of architecture within the environment that surrounds us, she felt the call to create ART Mandalas. Indeed, through them flows the primal forms, designs and colours of our planet, universe, and wider dimensions of existence, which today man is still not even aware of.

Through the medium of painting, a wide range of vibration and energy of nature, the universe, and of course ourselves is transferred to canvas. All this, in all its dimensions, depicts the world through ART Mandala. The explosion of colours, forms and shapes spill on the canvas in larger dimensions. It is the flow of positive thoughts, ideas, transferred from the invisible world to the visible. Crystal codes are inserted into the energy of the paintings that reflect the union between the stars and the planets of the universe. The ART Mandalas incorporate a combination of colours, shapes, natural materials, swarovski crystals and sand.

On TV Slovenia Sonja led the section on art and architecture of the ART ACT and she has travelled across India several times, filming documentaries to capture India's spirit. This country is charged with a world of colour, magical shapes and above all great spiritual potential. ART Mandala finds its original patterns and inspiration in the Vastu Shastru, the ancient science of art and architecture, which have been said to have originated from before 3000 BC. The ancient sciences including the science of Vastu Shastru were written in Sanskrit - the ancient language, which is also said to be the origin of Indo-European languages. This ancient language has its own sounds and records and have been converted into symbols; each sound bears its own symbol. It is this sounds and symbols that Sonia Trošt also explores in a project called ART & SOUND Mandala, in collaboration with one of the greatest Italian experts in the field of research vocals, Imelijem Alessandro (Alex Imelio).

Together they are also discovering the sounds of various phenomena in nature, and within the micro and macrocosm. Through the use of various scientific instruments these primal sounds are then converted into symbols. Finally, these symbols are revealed through an explosion of colour, form and shape by Sonia Trošt and expressed in larger dimension on canvas. Sonia Trošt's lives and works on the Slovenian coast with her work predominantly focused on the field of environmental art. Projects are implemented at home and abroad under the universal title ECOLIFE ART. For more information go to arhitektura-ekolife.si/art/

70 let pomorske šole

Če ne veš kam pluti, ti noben veter ne pomaga. (stara ljudska modrost)
Pomorska šola je pričela delovati 1. marca 1947 v Žusterni pri Kopru pod imenom Slovenska pomorska trgovska akademija. Imela je navtični, strojni in ladjedelski oddelek. Zaradi utesnjenosti se je šola že čez leto dni preselila v prostore nekdanje carinarnice v Piranu, kjer je zdaj akvarij. V teh in drugih prostorih je domovala do leta 1962, ko se je preselila v novo šolsko zgradbo v Portorož, kjer je še danes.

V teh 70 letih delovanja je šola zamenjala kar devet imen in se danes uradno imenuje Gimnazija, elektro in pomorska šola Piran (GEPŠ Piran). Predstavlja enega od temeljev pomorskega gospodarstva, saj je v tem času izobrazila vrsto dobrih pomorščakov, strokovnjakov v pomorskem gospodarstvu in drugih vejah ter ostale, ki so šoli v ponos ter energija za nadaljnje delo in razvoj.

Trenutno se dijaki izobražujejo v dveh strokovnih programih: PLOVBNI TEHNIK in ELEKTROTEHNIK ELEKTRONIK.

PLOVBNI TEHNIK je 4-letni strokovni program, ki je že 70 let osnova bodočim pomorščakom, da se usposobijo za varno vodenje vseh vrst ladij po vseh morjih sveta v službi častnika krova in poveljnika ladje. Praktično izobraževanje poteka tudi na različnih šolskih plovilih in pomorskih simulatorjih. Izobraževanje poteka v skladu z veljavnimi mednarodnimi predpisi ter ima tudi mednarodni standard kakovosti ISO 9001.

Šola se trudi ponovno oživetiti program ladijski strojni tehnik.

Drugi 4-letni strokovni program je ELEKTROTEHNIK ELEKTRONIK; ta dijake popelje v svet sestavljanja, priključevanja, servisiranja, načrtovanja, programiranja elektron-skih in avtomatskih naprav. V času šolanja ob številnih praktičnih primerih dijaki spoznavajo zakonitosti, ki poganjajo elektronske naprave, računalnike, pa tudi dvigala, vlake, elek-trarne.

Pod šolo spada tudi DIJAŠKI DOM in AKVARIJ PIRAN, prav tako že 70 let organizira pomorski oz. Neptunov krst, kjer nove dijake pod svoje okrilje sprejme sam morski bog Neptun.

Šola organizira tudi opravljanje najrazličnejših mednarodno priznanih strokovnih tečajev in izpopolnjevanj sedanjim in bodočim pomorščakom ter ostalih. Dijaki pod okriljem Neptuna že od začetka sodelujejo pri otvoritvi Internautice in želimo ohraniti dobro sodelovanje še naprej.

Povezujemo in razvijamo svet.

Maritime High School 70th anniversary

There is no wind that blows right for the sailor who doesn't know where the harbour is.

Maritime high school was founded in 1947 known as Slovenska pomorska trgovska akademija (Slovenian Academy of Maritime Trade). It offered three programs: nautical, mechanical engineering and shipbuilding. Lack of space was the main reason why a year later the school moved into a renovated building of former customs offices in Piran. Today this building is home to Aquarium Piran. The school remained in Piran since 1962. That year it moved to Portorož into a new building, which is still used today.

Over the last 70 years the school has been renamed nine times and is currently called Gimnazija, elektro in pomorska šola Piran (GEPŠ Piran). It has been of fundamental importance to maritime industry and it has educated a wide range of good seafarers and experts in maritime field as well as in other industries. The school takes pride in their achievements and gets energy for further improvements in education.

The school is now offering two programs, nautical technician and electrical technician.

NAUTICAL TECHNICIAN is a four-year program, which has been basic education for future seafarers since the beginnings of the school. It qualifies students for safe ship navigation, on different types of ship and all over the world serving as a deck officer and master.

Practical classes are held on several school vessels and maritime simulators. The program meets all the requirements of international regulations for safe navigation (SCTW Convention) and obtains ISO quality standards - ISO 9001. The school is also trying to bring back to life the program of ship mechanical technician.

ELECTRICAL TECHNICIAN is also a four-year program. It takes students into the world of assembling, connecting, servicing, designing and programming electronic and automatic devices. Schooling includes a lot of practical knowledge, therefore, students learn a lot about principles of how electronic devices, computers, elevators, trains, power plants etc. operate.

The school also manages Student Hostel Portorož and Aquarium in Piran. Moreover, it has been organizing Neptune Baptisms yearly for 70 years now. It is a unique event when the first year students, through the initiation ritual and with an oath, are accepted by Neptune - all mighty god of the seas.

The school offers extra trainings for seafarers and all the interested ones with the aim to improve their knowledge. These trainings are in accordance with international regulations. Our students under the protection of god Neptune have always been part of Internautica boat show and we definitely strive for a good operation in the future.

We connect and improve the world.

Internautica SUP Championship 2017

NAZIV ORGANIZATORJA:	Internautica, mednarodna razstava navtike ter Surf in SUP zveza Slovenije
IME PRIREDITVE:	Internautica SUP Championship 2017 - državno prvenstvo Slovenije v supanju 2017 na razdalji 16 km
KRAJ TEKMOVANJA:	Marina Portorož
DATUM:	6.5.2017
STATUS TEKMOVANJA, OPREMA:	Internautica SUP Championship 2017 šteje za državno prvenstvo na razdalji 16 km in velja tudi kot ena od kvalifikacijskih tekem za nastop na svetovnem prvenstvu v septembru 2017 na Danskem. Tekmuje se skladno s pravili Sup tekmovalnega pravilnika surf in sup zveze Slovenije . Na državnem prvenstvu lahko tekmujejo le tekmovalci z licenco. Licenco bo možno pridobiti ali podaljšati ob prijavi na tekmovanje. Tekmuje se na deskah ki so dolge največ 14,0" (427 cm). Uporaba varnostne vrvice (leasha) je obvezna. Vesla se stoje. Ob padcu v vodo je dovoljenih največ 5 (pet) zaporednih zaveslajev kleče. Kakršna koli pomoč druge osebe tekmovalcem ni dovoljena.
PRIJAVNI ROK IN ŠTARTNINA:	predprijave do 4.5.2017 na sup@internautica.net , startnina 20€ na dan tekmovanja, startnina 25€. V štartnino so vključeni brezplačna vstopnica za ogled sejma Internautica, brezplačna pijača in malica.
RAZPISANE KATEGORIJE:	DRŽAVNO PRVENSTVO <ul style="list-style-type: none"> • enotna moška, • enotna ženska kategorija, • starejši mladinci do 18 let, • starejše mladinke do 18 let. ODPRTO PRVENSTVO <ul style="list-style-type: none"> • enotna moška, • enotna ženska kategorija, • napihljive deske – moški, • napihljive deske – ženske, • MASTER, ženske nad 35 let, • KAHUNA, moški nad 45 let.
ODLIČJA IN NAGRADE:	V vseh razpisanih kategorijah bodo podeljene plakete. Prvouvrščeni tekmovalci oziroma tekmovalka prejme tudi pokal. V žrebu za praktične nagrade bodo sodelovali vsi tekmovalci.
VODJA TEKMOVANJA:	Rok Vettorazzi , rok.vettorazzi@gmail.com
PARKIRANJE:	Parkiranje je zagotovljeno v okviru parkirišča za obiskovalce sejma Internautica in je za tekmovalce brezplačno.
PROGRAM TEKMOVANJA:	09.00 – prijava in prevzem startnih števil 11.00 – zbor tekmovalcev 11.30 – start 13.15 – 14.00 – prihod tekmovalcev na cilj 15.00 – razglasitev rezultatov
TEKMOVALNO POLJE:	Start tekmovanja bo pred Marino Portorož med bojama 1 in 3. Proga vodi mimo hotelskega kompleksa Bernardin do piranske punte, kjer sledi obrat proti smeri urinega kazalca okrog boje 2, ter veslanje nazaj do Marine Portorož. Sledi obrat za 90 stopinj okrog boje 1 do boje 3. Pri boji 3 se tekmovalci spet usmerijo proti piranski panti. Na Panti ponovijo obrat okrog boje 2 ter veslajo nazaj proti marini. Pri marini spet naredijo obrat za 90 stopinj ter tekmovanje končajo med bojo 3 in obalo.

Internautica SUP Championship 2017

ORGANISER:	Internautica, International Boat Show and Surf, and SUP Association of Slovenia
NAME OF EVENT:	Internautica SUP Championship 2017
COMPETITION VENUE:	Marina Portorož
DATE:	6 May 2017
COMPETITION STATUS AND ELIGIBLE EQUIPMENT:	The Internautica Championship is considered the Championship of Slovenia at a distance of 16 km, and is also one of the qualifying matches for the World Championship, which will be held in September 2017 in Denmark. The competition will be held in accordance with the rules of the Surf and SUP Association of Slovenia. As such, only licensed riders may compete in the Championship category. A license can be obtained or renewed on the day of registration. Competing is possible on boards that are up to 14.0" (427 cm) long. The use of a safety strap (leash) is mandatory.
APPLICATION DEADLINES AND ENTRY FEE:	Pre-registrations are possible until 4 May 2017 using the entry form below. The entry fee for pre-registrations is €20, and €25 on the day of the competition. The entry fee includes a free ticket to visit the Internautica Boat Show, along with a drink and snack.
CATEGORIES:	<p>CHAMPIONSHIP</p> <ul style="list-style-type: none"> • men • women • older juniors up to 18 years <p>OPEN CHAMPIONSHIP</p> <ul style="list-style-type: none"> • men • women • inflatable boards - men • inflatable boards - women • Master, women over 35 years • Kahuna, men over 45 years
MEDALS AND AWARDS:	The first three places will be awarded medals in all categories. All competitors will also be included in a prize draw.
COMPETITION MANAGER:	Rok Vettorazzi , rok.vettorazzi@gmail.com
PARKING:	The car park intended for the Internautica Boat Show visitors is open to competitors free of charge.
COMPETITION PROGRAMME:	<p>Internautica SUP Championship 2017</p> <p>09.00 – Registration and submission of competition numbers 11.00 – Riders' meeting 11.30 – Start 13.15 – 14.00 – Arrival of the riders at the finish 15.00 – Official announcement of the results and award ceremony</p>
COMPETITION AREA:	The competition will start in front of the Marina Portorož between buoys 1 and 3. The route runs along the main Portorož beach to the Bernardin hotel in Piran, where a clockwise turn around buoy 2 follows, and then competitors paddle back to Marina Portorož. This is followed by a 90° turn around buoys 1 and 3. The competitors then make a turn around buoy 2 in Punta Piran, and paddle back towards Marina Portorož. When in Marina Portorož they turn 90° again, and ending the competition between buoy 3 and the beach.

Zelena Avenija 2017

Enaindvajseta INTERNAUTICA bo ponovno vsebinsko naravnana k predstavitvi inovativnih tehnologij prihodnosti, ki dvigujejo posameznikovo ekološko ozaveščenost in ga spodbujajo k uporabi energije iz obnovljivih virov ali hibridnih sistemov z zmanjšano porabo goriva in emisij. V okviru projekta Zelena Avenija 2017 so predstavljena zanimiva električna in hibridna vozila in seveda v prvi vrsti plovila ter navtična oprema te vrste.

V okviru tega programa so bila leta 2014 razstavljena električna in hibridna vozila: Pipistrelovo letalo, različni hibridni in električni avtomobili (BMW i3, Tesla, Opel Ampera, Smart E-roadster, E-Smart, Nissan Leaf), ekološka vozila (Fiat, predelava na plin), ter električno motorno in klasično kolo. Na privezih je bilo možno obiskati hibridna plovila Greenline, ter nekaj električno ganih plovil.

Zelena avenija je razširila svoj razstavni program tudi na druge izdelke in storitve, ki niso direktno povezani s transportom. Vse, kar je ekološko usmerjenega, torej tehnološko dovršenega in okolju prijaznega, bo vsebina letošnje Zelene Avenije. Izdelki bodo med seboj delovali podporno, in s tem dvigovali raven vseh razstavljenih programov.

Obdobje, ki je pred nami, bo zaznamovala preudarna in učinkovita uporaba energije, preusmeritev na zelene energije in razvoj s tem povezanih tehnologij. Na področju zelene mobilnosti smo Slovenci dosegli več kot marsikdo: na cesti, v zraku in na vodi. Ustvarili smo temelje in možnosti za pomemben del slovenske gospodarske prihodnosti in identitete.

Green Avenue 2017

21st INTERNAUTICA will be focusing again on the presentation of innovative future technologies increasing individual's ecological awareness promoting the use of energy from renewable sources, or hybrid systems with reduced fuel consumption and emissions. The project Green Avenue 2017 is presenting new electric and hybrid vehicles, and of course vessels and nautical equipment of this type.

In 2014 various electric and hybrid vehicles have been exhibited: Pipistrel NASA-award winning aircraft, various hybrid and electric cars (BMW i3, Tesla, Opel Ampera, E-Smart Roadster, E-Smart, Nissan Leaf), ecological vehicles (Fiat, gas engine modification), and an electric motor and bicycle. In the water it was possible to visit the hybrid vessels Greenline, as well as some purely electric-driven vessels.

In 2017 the Green Avenue has increased and presented more exhibited cars, motorcycles, bicycles and other means

of transport used to drive electrical or hybrid vehicles. At the same time Green Avenue will expand the program to other products and services that are not directly related to transport. Everything ecologically oriented, that is technologically sophisticated and environmentally friendly will be shown in the area of Green Avenue. Products, supporting each other are increasing the level of all the displayed programs.

The period ahead will be marked by the prudent and efficient use of energy, shift to green energy and the development of related green technologies. In the field of green mobility, Slovenia has achieved many outstanding results - on the road, in the air and on the water. A platform and many opportunities for successful Slovenian economic future and identity has been created in last few years.

Društvo za okoljsko vzgojo v Sloveniji, DOVES - FEE Slovenia: Več kot 20 let oblikovanja ekološke zavesti in ekološke odgovornosti ter spodbujanja okoljske vzgoje in trajnostnega razvoja

Mag. Boris Šušmak
Nacionalni koordinator
programa MZ
National coordinator of the Blue-
Flag program

„Društvo DOVES – FEE SLOVENIA (DOVES) je prostovoljna, samostojna, neprofitna in nevladna organizacija, ki v Sloveniji izvaja prepoznane mednarodne okoljske programe za spodbujanje okoljske vzgoje in trajnostnega razvoja. Kot polnopravni član Mednarodne fundacije za okoljsko vzgojo FEE (Foundation for Environmental Education) s sedežem na Danskem, je edina organizacija v Sloveniji z ekskluzivno pravico za izvajanje programov fundacije FEE v Sloveniji. S tem povezuje Slovenijo v strateško mednarodno zvezo 73 držav.

V Sloveniji izvajamo programe Modra zastava, Ekošola, Mladi poročevalci za okolje in LEAF ter Zeleni ključ za turistične namestitve. »Udarna« programa Modra Zastava in Ekošola sta neprecenljive vrednosti.“

Kot se vsi zavedamo so podnebne spremembe nov izziv, ki prinaša globalnemu turizmu več tveganja kot priložnosti ter napoveduje regijsko, sezonsko in produktno prerazporeditev turističnih tokov. Vedenje potrošnikov se hitro spreminja, turisti vedno pogosteje iščejo zelene, odgovorne destinacije. Modra zastava je promocijsko orodje s katerim lahko vplivamo na tovrstne odločitve potrošnikov.

ŽE TRIDESET LET MEDNARODNEGA PROGRAMA MODRA ZASTAVA

V letu 2017 podeljenih 15. Modrih zastav. Izdan tudi e-priročnik za upravljalce kopališč in marin.

Programa MODRA ZASTAVA nudi slovenskih občinam in turističnemu gospodarstvu priložnost za promocijo turistične destinacije in lahko služi kot **indikator (eko)kakovosti turistične destinacije**. Sam program Modra zastava v Sloveniji že vrsto let podpira tudi Slovenska turistična organizacija.

Pričakovane učinke izvajanja programa Modra zastava lahko strnemo v naslednje alineje:

- uvajanje/širitev ekološkega managementa, ekoloških standardov v slovenski turizmu,
- uvajanje in promocija ekološke blagovne znamke Modra zastava v slovenskem turizmu,
- sodelovanje v evropski (svetovni) družini ekološko odgovornih turističnih upraviteljev,
- informiranje javnosti o stanju okolja (čistost voda, plaž, varovanih območij, ipd.),
- sodelovanje turistične in lokalne skupnosti, sodelovanje upravljalcev plaž, hotelov in marin.

V letošnjem letu je v Sloveniji potekal že 23. razpis za Modro zastavo, mednarodno priznani okoljski znak za trajnostno upravljanje kopališč in marin, namenjen povečevanju okoljske ozaveščenosti na kopališčih, (so)oblikovanju okoljske etike ter spodbujanju okoljsko odgovornega obnašanja. Modro zastavo pa lahko pridobijo marine in kopališča, ki zadostijo zahtevnim kriterijem in le-te tudi v praksi udeležijo skozi okoljski menedžment. Kriteriji programa Modra zastava so razvrščeni v štiri (4) kategorije:

Letos je FEE na predlog Nacionalne komisije nagradila 16 upravljalcev z modro zastavo.

- Kvaliteta kopalne vode,
- Okoljska vzgoja in informiranje,
- Okoljsko upravljanje in
- Varnost ter storitve.

Modro zastavo, kot znak okoljske kakovosti in varnosti, marine in kopališča prejmejo za obdobje enega leta, zato se morajo vsako leto znova potruditi, da zadostijo vsem zahtevanim kriterijem in v času, ko v marinah in na kopališčih plapolja Modra zastava, to kakovost tudi nadzirajo in zagotavljajo raven storitev za katere so se zavezali v razpisu. Izvajanje pravil in zahtev preverjajo poleg potrošnikov/uporabnikov tudi nadzorniki DOVES-a in FEE-ja ter upravljalce in javnost opozarjajo na morebitne pomanjkljivosti, ki jih je potrebno v najkrajšem možnem času odpraviti, sicer lahko Modro zastavo – znamenje kakovosti – izgubijo.

Mednarodna komisija programa Modra zastava je na podlagi predloga Nacionalne komisije za Modro zastavo Sloveniji za leto 2017 potrdila 15 modrih zastav. V svetu je v 47 državah vsako leto podeljenih preko 4.266 Modrih zastav in število se iz leta v leto povečuje, saj za upravljalce kopališč in marin ter pristojne občine

Modra zastava pomeni dodano vrednost in kazalnik učinkovitosti turistične ponudbe ter »zelenega turizma«. Modro zastavo pridobijo marine in naravna kopališča, ki zadostijo zahtevnim kriterijem in le-te tudi v praksi udeležajo.

SLOVENSKI DOBITNIKI MODRIH ZASTAV ZA LETO 2017

12 naravnih kopališč: Meduza Portorož, Centralna plaža Portorož-Okolje Piran, Grajsko kopališče Bled, Naravno kopališče Grand hotela Bernardin, Krka Strunjan, Kopališče Salinera Strunjan, Plaža Simonov zaliv, Debeli rtič, Šobčev bajer, Naravno kopališče Vile Park Bernardin, Mestno Kopališče v Koprju in 3 marine: Marina Portorož, Marina Izola, Marina Bernardin.

DOVES - FEE Slovenia:

Over 20 years of creating environmental awareness and ecological responsibility and promotion of environmental education and sustainable development

"DOVES – FEE Slovenia" is a voluntary, independent, non-profit and non-governmental organization (NGO) conducting internationally recognized environmental programs for encouragement of environmental education and sustainable development in Slovenia. As a full member of the Foundation for Environmental Education (FEE), it is the only Slovenian organization with exclusive rights to conduct FEE programs in Slovenia and includes Slovenia in a strategic international network of 73 countries.

In Slovenia, we conduct all FEE programs: Blue Flag, Eco-Schools, Young Reporters for the Environment, LEAF and the Green Key.

The most valuable programs at the moment are Blue Flag and Eco-schools. Eco-school program for pre-school children, pupils and students approaching the organic content and behavior. We estimate that since its startup in 1996 participated in the program 19 Slovene generations and more than half a million young Slovenians.

"Both programs are involved with the local community and are focused on the environment and environmental issues, both locally as well as nationally. With the creation of environmental awareness and ecological responsibility are also improving our environmental behavior and the future of our planet Earth, and thus the quality of life for present and future generations."

Fiorenzo Lupieri, President of DOVES-FEE SLOVENIA

30 YEARS OF THE BLUE FLAG PROGRAM. 15 operators awarded with Blue Flags in 2017.

Issued a e-handbook for beaches and marinas managers.

"As we all know climate change is a new challenge that brings global tourism more risks than opportunities, predicts regional, seasonal and product redistribution of tourist flows. Consumer behavior is changing rapidly; tourists are increasingly looking for green, responsible place. The Blue Flag is a promotional tool by which we can influence these decisions of consumers."

Boris Šušmak, M.Sc., Blue Flag program's National Coordinator

Blue flag program offers Slovenian municipalities and to the tourist industry the opportunity to promote a tourist destination and can serve as an indicator of tourist destination's quality. The Slovenian Blue flag Program is also supported by the Slovenian Tourist Board for many years.

Blue flag program offers Slovenian municipalities and to the tourist industry the opportunity to promote a tourist destination and can serve as an indicator of tourist destination's quality. The Slovenian Blue flag Program is also supported by the Slovenian Tourist Board for many years.

The expected effects of the implementation of the Blue flag program can be summarized in the following indent:

- Introduction / expansion of ecological management, ecological standards in Slovenian tourism,
- Introduction and promotion of eco-label Blue Flag in Slovenian tourism,
- Cooperation within the world's Blue Flag family of ecologically responsible tourism managers,
- Informing the public about the state of the environment (clean water, beaches, protected areas, etc.)
- Cooperation of all stakeholders: tourists, local community, beach operators, hotels and marinas.

Blue flag criteria are grouped into four (4) categories:

- The quality of bathing water
- Environmental Education and Information,
- Environmental management and
- Safety and Services.

This eco label can award marinas and beaches for a period of one year/bathing season. Therefore, every year they must do some effort to meet all the required criteria and pass the assessment.

When the marinas and beaches are fluttering the Blue flag, this means also that a quality control have been done and provide

Fiorenzo Lupieri
Predsednik Društva
DOVES FEE SLOVENIA
President of the association
DOVES FEE SLOVENIA

a level of service to which they have committed in the call.

The International National Jury of the Blue flag decision is based on the proposal of the Slovenian National Jury and for the year 2017 confirmed 15 Blue flags. There is **47 countries** and over **4,266 Blue flags** in the World taking part of the Blue flag program and the number increases from year to year due to the fact that the Blue flag program represents the added value for beaches, marinas and municipalities and also serves as an indicator of the efficiency of tourist services and "green tourism"/eco-destination.

2017 BLUE FLAG AWARDED OPERATORS IN SLOVENIA

12 beaches: Medusa Portorož, Central beach Portorož, Grajsko kopališče Bled, Saint Bernardin, Krka Strunjan, Salinera Strunjan, Simonov zaliv, Debeli Rtič, Šobec, Ville Park Bernardin, Municipality beach Koper and 3 marinas: Marina Portorož, Marina v Izoli and Marina Bernardin.

Responsible for
the christening of
1 in 5 yachts
in the U.S.

*Not responsible for any champagne cork damage.

Stare barke in starodobniki spet z roko v roki z Internautico

Kaj pa jadra šepetajo,
kadar veter jih napenja?
Srečna so, da se začneja
nova pot,
ne skrbi jih, kam in kod ...

Verz iz pesmi Miroslava Košute, Kriško kraške

Le kaj imajo skupnega stare in tradicionalne barke s starodobniki in sodobno Internautico? Zelo različni, a hkrati prepoznavni, tradicionalni in ponovljivi skozi desetletja našega sodelovanja, ki je iz ljubiteljstva preraslo v osrednji mednarodni poslovno-turistični dogodek na slovenski Obali, tik pred vstopom v novo turistično sezono.

Društvo ljubiteljev starih bark Piran pluje v svojo 39. ponovitev regate starih bark v Piranskem zalivu. Ta bo popestrila dogajanje tudi tokratne, že 22. mednarodne razstave navtike. Hkrati bo že petnajsto leto zapored obogatila dogodek s srečanjem starih bark in starodobnih avtomobilov v Piranskem mandraču. Ta dogodek prinaša pomembno možnost za druženje ljudi, tradicionalno regato z ohranjanjem spomina na bogato pomorsko kulturno dediščino, ki pripada ljudem severnega Jadrana. Tradicionalna regata vedno znova oživi tekmovalni duh »barkajolov« na morju pred Piranom, skupaj s starodobniki pa bodo barke obiskale tudi prizorišče Internautice in popestrile mavrični spekter tehnične in kulturne dediščine od nekoč do danes.

Biti delček v mozaiku tehničnih in tehnoloških novosti na področju navtike, hkrati pa dodati dušo in telo dogodku s tradicijo zapisano v lesu pod tradicionalnimi jadri, je tista strast, ki že vsa leta veže zanesenjake – prave prijatelje morja, da se združujemo in vztrajamo v osrednjem piranskem stanovskem društvu, Društvu ljubiteljev starih bark. Prav to leto je prelomno, saj smo se aktivno vključili v projekt Mala barka 2, v katerem bomo z revijo starih bark obogatili septembrski Neptunov krst - krst pomorščakov, ki postaja vsebinsko bogata tridnevna prireditev.

Čas med dvema Internauticama pa bo čas priprave pregledne publikacije o 40-letnem delovanju društva pri ohranjanju pomorskih obrti in običajev ter v skrbi, da barka ostaja živo bitje, z imenom in lastnikom ter družino ki ji pripada in tako nas Slovence tudi v naprej deklarira kot pomorski narod s tisočletno pomorsko zgodovino.

Janez Šabec,
Predsednik Društva ljubiteljev starih bark Piran

Classic Boats and Oldtimer Cars, Hand-in-Hand with Internautica

What do sails whisper,
when they are stretched by the wind?
They are happy to start
a new trip,
they don't worry, where or when ...
Verse from Miroslav Košuta's poem "Kriško kraške"

What do classic and traditional boats have in common with oldtimer cars and the modern Internautica? A very diverse but at the same time recognisable, traditional and long-standing event that has evolved through the decades of our collaboration, one that started as a hobby and which has grown into the main international business and tourist event on the Slovenian coast, one that takes place right before the start of the new tourist season.

The Piran Classic Boats Fans Association is hosting its 39th Old Boats Regatta in Piran Bay, an event that will add to the excitement around the 22nd International Nautical Exhibition. Moreover, this event will also see both classic boats and oldtimer cars meeting at Piran's small marina for the fifteenth year in a row. This is the perfect opportunity for social gatherings and for the traditional regatta, which preserves the memory of the rich naval cultural heritage that belongs to the people of the northern Adriatic. The traditional regatta will revive the competitive spirit of the barkajoli on the sea by Piran, the rowers who transport people short distances across the water. Together with oldtimer cars the boats will also visit the Internautica

venue, and so add some spice to already diverse range of technical and cultural heritage on display there.

Being part of the mosaic of technical and technological novelties in the nautical sector, and at the same time giving the event the soul that has been traditionally engraved in the wood beneath the old sails – this is the passion that has driven the enthusiasts – the real sea lovers who work together and persist in the main Piran-based group for such folk, the Classic Boats Fans Association. This year is a milestone, because we are actively participating in the Mala barka 2 (Small Boat 2) project, where we will present a line of classic boats to enrich the line-crossing ceremony that is now a very interesting three-day event.

The time between two Internautica exhibitions will also be the time to prepare a publication about the 40 years of work of the association in preserving marine crafts and customs, and for putting its efforts into maintaining the spirit of the boat – including its name, owner and family. In this way, Slovenians are still continuing their traditions as a naval nation with thousand years of maritime history.

Janez Šabec,
President of the Piran Classic Boats Fans Association

Večprednostna naprava občutljiva na dotik

Enota, ki predstavlja del sistema, je občutljiva na dotik.

Uporaba je intuitivna in brez posebnih navodil.

Naprave je možno upravljati in nadgrajevati iz oddaljene lokacije

Nemotena uporaba in nizki stroški vzdrževanja ali posodabljanja.

Aplikacije so izdelane po želji naročnika.

Možnosti uporabe so neomejene, glede na okolje v katerega je Multidata naprava umeščena.

KLJUČNE KARAKTERISTIKE:

DIAGONALA EKRANA 52" (132 cm)

EKRAN VISOKE LOČLJIVOSTI (FULL HD 1920 x 1080)

OBČUTLJIVOST NA DOTIK (MULTI - TOUCH)

VGRAJENI ZVOČNIKI

TERMOSTATSKO URAVNAVANJE TEMPERATURE

ZAŠČITA PROTI VANDALIZMU

POKONČNA ORIENTACIJA (PORTRET)

VIŠINA = 210 cm

ŠIRINA = 83 cm

GLOBINA = 16 cm

Švica/Switzerland**ALESSANDRO BARIZZI**+41792614148
office@adleryacht.com

Adler Yachts je nov proizvajalec ki združuje avtomobilsko, letalsko in navtično tehnologijo. Jahta ADLER SUPREMA flybridge je dolga 76 čevljev, izdelana je iz karbonskih vlaken in ima hibridni pogon. S svojo inovativno obliko, pogonom in napredno tehnologijo premika meje možnega. Zasnovali in izdelali so jo vodilni evropski strokovnjaki ladjedelne, letalske in avtomobilske industrije.

The newly launched full-carbon, hybrid propulsion 76 feet yacht ADLER Suprema flybridge is breaking barriers with its innovative design, hybrid propulsion system and advanced technology, created by leaders in the marine, aviation and automotive industries across Europe. Nuvolari-Lenard's Design eye catching exterior lines are featured on some of the world's most legendary superyachts. Its strong lines and sporty profile also offer a large amount of exterior space for a yacht of this length.

Ladjedelnica Adria-Mar bo na letošnjem sejmu razstavljala 11 metersko, aluminijasto motorno jahto, Fisherman 36. Jahta je bila s strani strokovne javnosti zelo opažena in je tudi prejela nagrado za Hrvaški Čoln Leta 2017. Fisherman 36 je oblikovan za profesionalni ribolov, vendar ga je možno naročiti v različnih kizvedbah.

Adria-Mar Shipbuilding Ltd. is exhibiting 11 meter aluminium motorboat, Fisherman 36. The boat has been recognized by nautical industry as exciting new design and has already won Croatian Boat of the Year 2017 award. Fisherman 36 is designed for big game fishing, but can be ordered in several different hull configurations and levels of interior quality.

Foldable RIB Adriatic D.O.O. zastopa zložljive napihljive čolne FRIB na Jadranu. Blagovna znamka FRIB se je razvila v Veliki Britaniji na podlagi ruske izkušnje pri izdelavi zložljivih mobilnih čolnov s trdim dnom za specialce. Vse čolne znamke FRIB izdelujejo v Sankt Peterburgu (Rusija) z natančnim upoštevanjem vseh tehnoloških zahtev in zahtev glede kakovosti. Vsi čolni FRIB imajo evropski CE certifikat IMCI.

Foldable RIB Adriatic D.O.O. represents FRIB - Foldable Rigid Inflatable Boats - in the Adriatic region. The FRIB brand was developed in the UK on the basis of the Russian experience in the production of foldable hard bottom boats for special services. All FRIBs are manufactured in St. Petersburg (Russia) strictly following to all technological and quality requirements, and have the European certificate CE of International Marine Certification Institute.

Z letom 2017 se kolesa Rog vračajo na cesto in to z enim izmed svojih najbolj legendarnih proizvodov - zlojljivim kolesom Pony. Prenovljen Pony zaradi svoje enostavne zlojljivosti, nerjavečih komponenti, sodobnega dizajna in odličnih voznih lasnosti, predstavlja idealno prevozno sredstvo za raziskovanje priobalnih območij in vožnjo po marinah.

With their 65-year long tradition, Rog bicycles represent the symbol of the Slovenian bicycle industry. In 2017, Rog bicycles are returning to the road with one of their most legendary products - the folding bike Pony. Due to its modern design, stainless components, foldability and driving characteristics, the refurbished Pony is a perfect vehicle for discovering coastal areas.

ThinkPad X1 FAMILY

ThinkPad X1 Carbon

Izjemno tanek. Izjemno lahek. Izjemno trpežen. Ko gre za povprečni Ultrabook™, se zdi, da si te lastnosti med seboj nasprotujejo. Vendar pa je X1 Carbon daleč nad povprečjem. Ponaša se z ohišjem, ki je ojačano z ogljikovimi vlakni, prestal pa je preskuse trpežnosti v okoljih z izjemno težkimi pogoji. Poleg tega ima več kot celodnevno življenjsko dobo baterije, hitrejši in zmogljivejši pomnilnik, kot tudi inovativne možnosti uporabe priključne postaje, vključno z brezžično.

Procesor: Intel® Core™ i7-6600U
 Pomnilnik: 16GB LPDDR3
 Disk: 512GB SSD M.2 PCIe-NVMe
 Zaslona dotik: 35,6 cm (14,0") OLED WQHD
 (2560x1440) glare,
 Windows 10 Professional 64 bit
 Mednarodna garancija 3 leta

ThinkPad X1 Yoga

Ta izjemno lahek računalnik 2 v 1 je pravi vzor vsestranskosti, saj se prilagaja vašemu poslovanju s štirimi različnimi načini uporabe za delo, predstavitve, ustvarjanje in povezovanje. Ima osupljiv zaslon, ki omogoča prikaze intenzivnih barv z močnim kontrastom. In celo priključno pisalo, ki ga je mogoče polniti. Poleg tega pa uporablja najhitrejšo in najnaprednejšo mobilno širokopasovno tehnologijo, ki je trenutno na voljo.

Procesor: Intel® Core™ i7-6600U

KODA 880 že s svojim zunanjim izgledom uporabniku obeta udobno bivanje in varno plovbo. Plovilo dolžine 8,8 m in širine 3,3 m je zasnovano tako, da omogoča optimalno prostorsko izkoriščenost in sproščeno gibanje. Polizpodrívni trup s svojo obliko zagotavlja dobro okretnost in stabilnost plovila tudi v manj ugodnih razmerah za plovbo. Na sejmu je razstavljen prototip plovila.

With its outer appearance KODA 880 promises its users a comfortable stay and safe sea voyage. The boat length is 8.8 meters and the width is 3.3 meters. It is designed in such a way to offer optimal spacious living and a very relaxed performance sailing experience. A semi-displacement hull provides good stability and maneuverability in evenless favorable weather conditions.

TTY je uradni zastopnik za prodajo jadrnic in motornih plovil znamke Bavaria Yachts. Poleg prodaje naša dejavnost vključuje svetovanje pri financiranju, nakupu in charter managementu. Naša mreža pooblaščenih servisov pokriva celotno jadransko obalo, s čimer skrbimo za zadovoljstvo kupcev tudi po nakupu plovila. Že nekaj let smo zastopnik tudi za inovativno jadro Parasailor, ki je zaradi enostavne uporabe primerno za maloštevilčne posadke.

TTY is the official representative of Bavaria Yachts. Our activities include not only sales, but also advice on financing, purchasing boats and charter management. Our widespread network of authorized service partners covers the entire Adriatic coast, which allows us to ensure professional customer service with aftersales support. We are official representatives also for the innovative sail Parasailor, which is suitable for shorthanded sailing.

S-BIKES

ZLOŽLJIVO ELEKTRIČNO KOLO

S-BIKES F50e

Uradno kolo Internautica 2017

Od trenutka, ko se boste usedli na S-BIKE, vam bo jasno, da česa takega še niste občutili. Električno kolo **S-BIKES F50e** vam bo za vedno spremenilo pogled na kolesarjenje. Potovanja bodo dobila novo razsežnost in še tako oddaljeni kraji bodo za vas postali lahko dosegljivi. S-BIKES F50e odlikuje izjemno lahko aluminijasto ohišje. Celotno električno kolo tako z baterijo in vso opremo tehta manj kot 22 kg. Po zaslugi zmogljive baterije priznanega proizvajalca Samsung vam S-BIKES pomaga pri vaši vožnji do kar **65 km** daleč v ECO načinu s samo enim polnjenjem. Polnjenje je enostavno. Poteka preko običajne hišne električne vtičnice. Baterijo pa je mogoče vzeti tudi iz kolesa in jo polniti ločeno. Dodatno uporabnost kolesa omogoča serijsko **vgrajena vtičnica USB**, ki omogoča polnjenje električnih naprav, kot so mobilni telefoni, navigacijske naprave ali prenosni računalniki. Električno kolo S-BIKES omogoča 7 različnih režimov delovanja. Od športnega programa za hiter doseg najvišje hitrosti, do ECO programa s podaljšanim dosegom.

							
Zmogljivost baterije (mAh)	Doseg ECO način do (km)	Čas polnjenja (h)	Št. programov el. pomoči	Maksimalna hitrost (km/h)	Menjajnik, št. prestav	Št. ust. izhodov (polnjenje)	Moč motorja (W)

TURISTIČNA KMETIJA PRI FILETUSlope 20 A
6240 Kozina
Slovenija/Slovenia**FRANC JELUŠIČ**+38641927230
t.k.-file@siol.net

Na kmetiji pridelujemo različna žganja, med katerimi izstopata kraški brinjevec in brkinski slivovec z geografsko označbo. Kraški brinjevec je narejen iz fermentiranih brinovih jagod in se destilira dvakrat. Pri prvi destilaciji pridobimo tudi brinovo olje, ki ima veliko zdravilnih učinkovin. Brkinski slivovec je proizveden iz avtohtonih sort češpelj z destilacijo fermentirane drozge.

In the farm we also produce various spirits, of which the Kraški brinjevec (Karst Gin) and Brkinski slivovec (Brkini plum brandy) are registered as a protected geographical indication. Kraški brinjevec is made of fermented juniper berries and prepared using double distillation. The first distillation also produces juniper oil, which has many beneficial applications. Brkinski slivovec is produced using the distillate of the fermented mash from the authentic local plum varieties.

Ukvarjamo se s prodajo ogrevanih masažnih bazenov znamk Sundance Spas, Marquis spas, Arctic Spas, plavalno masažnih bazenov, savn, solarnih tušev (italijanska znamka Formidra), dizajnerskih stolov ter ležalnikov. V našem prodajnem programu imamo tudi bazenske strehe, robotske bazenske sesalce, bazenske toplotne črpalke ter kemikalije in dodatno opremo za masažne in plavalne bazene. Svoj asortiman izdelkov smo razširili z dizajnerskim pohištvo in SUP deskami.

We deal with the sale of heated massage pools: Sundance Spas, Marquis Spas, Arctic Spas, swimming-massage pools, saunas, solar showers (italian brand Formidra), designer chairs and Chaise Lounges. In our sales program we offer pool roof, robot pool cleaners, pool heat pumps, chemicals and additional equipment for massage and swimming pools. We have created a wider range of our assortment with designer furniture and SUP boards.

Yachting Center Biograd offers charter management and brokerage for new and used boats as well as event management (regattas, daily cruises, team building,..), complete annual maintenance and service for boats and also many nautical products (coverings, lighting systems, marine electronic equipment,..).</p>
<p>P4-16 YACHT-POOL D.O.O. Stipe Rajka 40 52440 Poreč Hrvaška/Croatia</p>	<p>MARJAN DŽELALJA +38552432230 info@yacht-pool.hr</p>	<p>Yacht-pool je vodilna navtična zavarovalnica na Jadranu poznana po svojih unikatnih zavarovalniških pravilih, ki so jih ustvarili izkušeni mornarji in navtični profesionalci, da bi zaščitili lastnike, skiperje, čolne in jahte na najboljši možen način. Glavna prednost Yacht-Pool-ovih zavarovalniških pravil je dejstvo, da so le ta personalizirana glede na čoln in lastnika/uporabnika. Yacht-Pool ponuja tri glavne tipe zavarovanj: zavarovanje plovila, zavarovanje skiperja in posadke kot tudi zavarovanje za profesionalne dejavnosti. Yacht-Pool is a leading marine insurance provider in the Adriatic recognized for its unique insurance terms and conditions created by experienced sailors and marine professionals to protect owners, skippers, boats and yachts in the best possible way. Furthermore, the main advantage of Yacht-Pool insurance policies is the fact they are personalized regarding each boat and each owner/user. Yacht-Pool offers three main types of insurance: boat insurance, skipper&crew insurance as well as insurance for professional activities.</p>
